Case No. 5432  
Order Setting Hearing  
August 31, 1965

SUPPLEMENTAL OPINION AND ORDER

By Decision No. 76408 dated November 12, 1969, in the above proceeding, the Commission canceled, amended and retained various exception ratings in Minimum Rate Tariff No. 2. Through inadvertence, the exception ratings in Item No. 365 of Minimum Rate Tariff No. 2 on iron or steel pipe or tubing and pipe fittings were not amended to reflect the authority granted by said decision.<sup>1</sup>

In the circumstances, it appears, and the Commission finds, that the necessary correction should be made by the order herein. A public hearing is not necessary. The Commission concludes that Minimum Rate Tariff No. 2 should be amended accordingly.

IT IS ORDERED that:

1. Minimum Rate Tariff No. 2 (Appendix D to Decision No. 31606, as amended) is further amended by incorporating therein, to become effective April 18, 1970, Twenty-second Revised Page 37-D, attached hereto and by this reference made a part hereof.

<sup>1</sup> As published these exception ratings apply only when transported from, to or between oil, water or gas well job sites. It was intended that these ratings also apply when transported from, to or between a site for drilling an exploratory oil, water or gas well; a job site located off paved road; a pier, quay or wharf for transshipment from or to an offshore drilling facility.

2. Tariff publications required to be made by common carriers as a result of the order herein shall be made effective not earlier than the fifth day after the effective date of this order on not less than five days' notice to the Commission and to the public and such tariff publications shall be made effective not later than April 18, 1970.

3. In all other respects, Decision No. 31606, as amended, and Decision No. 76408 shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 21st day of March, 1970.
