SUPPLEMENTAL OPINION

Interim Decision No. 76299, dated October 21, 1969, in this proceeding, authorized the State of California Department of Public Works to alter the crossing of State Route No. 97 at grade with a track of the Southern Pacific Transportation Company (Crossing No. CF-407.4) in the City of Dorris, Siskiyou County. The decision stated that the issue of apportionment of maintenance costs of the protection at the improved crossing would be covered by a subsequent order of the Commission. All work has been completed. Commission Resolution No. ET-1147, dated November 24, 1970, ordered that the maintenance costs be apportioned equally between the State and Railroad on a 50-50 basis. In the circumstances, no further order in this proceeding is required.

Dated at San Francisco, California, this 26th
day of JANUARY, 1971.
