Decision No. 78335

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
 ROY F. PETERS, an individual, to sell)
 and transfer a Certificate Of Public)
 Convenience and Necessity as a cement)
 carrier to PETERS TRUCKING SERVICE,)
 INC., a California corporation.)

Application No. 52050
 (Filed July 21, 1970)

SUPPLEMENTAL OPINION

By Decision No. 77829 dated October 14, 1970, Roy F. Peters was authorized to sell and transfer and Peters Trucking Service, Inc., was authorized to purchase and acquire a certificate of public convenience and necessity authorizing operations as a cement carrier. The determination as to whether the County of Sutter was to be included in the transfer was held in abeyance pending further consideration by the Commission as to whether the authority to service said County had lapsed and terminated pursuant to Section 1065.2 of the Public Utilities Code. The Commission by Decision No. 78029 dated December 8, 1970, in Application No. 51241 determined that Section 1065.2 applied to a certificate as a whole and not to a segment thereof.

The Commission therefore finds that the proposed transfer of authority to serve Sutter County would not be adverse to the public interest. A public hearing is not necessary.

Peters Trucking Service, Inc., is hereby placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to

the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

SUPPLEMENTAL ORDER

IT IS ORDERED that:

1. On or before July 1, 1971, Roy F. Peters may sell and transfer, and Peters Trucking Service, Inc., may purchase and acquire, the operative authority to serve the County of Sutter.
2. Within thirty days after the consummation of the transfer herein authorized, purchaser shall notify the Commission, in writing, of that fact and within said period shall file with the Commission a true copy of any bill of sale or other instrument of transfer which may be executed to effect said transfer.
3. Purchaser shall amend or reissue the tariffs on file with the Commission, naming rates and rules governing the common carrier operations herein to show that it has adopted or established, as its own, said rates and rules. The tariff filings shall be made effective not earlier than five days after the effective date of this order on not less than five days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the consummation of the transfer herein authorized. The tariff filings made pursuant to this order shall comply in all respects with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 117. Failure to comply with and observe the provisions of General Order No. 117 may result in a cancellation of the operating authority granted by this decision.

4. On or before the end of the third month after the consummation of the transfer as herein authorized, purchaser shall cause to be filed with the Commission, in such form as the Commission may prescribe, an annual report, or reports, related to the operations of the seller for the period commencing with the first day of the current year to and including the effective date of the transfer.

5. In the event the transfer authorized in paragraph 1 hereof is consummated, a certificate of public convenience and necessity is granted to Peters Trucking Service, Inc., authorizing it to operate as a cement carrier, as defined in Section 214.1 of the Public Utilities Code, between the points particularly set forth in Appendix A, attached hereto and made a part hereof.

6. The certificate of public convenience and necessity granted in paragraph 5 of this order shall supersede the certificate of public convenience and necessity granted by Decision No. 77829, which certificate is revoked effective concurrently with the effective date of the tariff filings required by paragraph 3 hereof.

7. Within thirty days after the transfer herein authorized is consummated, purchaser shall file a written acceptance of the certificate herein granted. Purchaser is placed on notice that, if it accepts the certificate of public convenience and necessity herein granted, it will be required, among other things, to comply with and observe the safety rules of the California Highway Patrol, and insurance requirements of the Commission's General Order No. 100-F.

8. Purchaser shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form,

content, and number of copies as the Commission, from time to time, shall prescribe.

9. Purchaser shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If purchaser elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 22nd day of FEBRUARY, 1971.

Chairman

Commissioners

Commissioner William Symons, Jr., being necessarily absent, did not participate in the disposition of this proceeding.

Commissioner Vernon L. Sturgeon, being necessarily absent, did not participate in the disposition of this proceeding.

Peters Trucking Service, Inc., a corporation, by the certificate of public convenience and necessity granted by the decision noted in the margin, is authorized to conduct operations as a cement carrier as defined in Section 214.1 of the Public Utilities Code from any and all points of origin to any and all points within the counties of Colusa, Nevada, Placer, Sacramento, San Francisco, San Mateo, Santa Clara and Sutter, subject to the following restriction:

"This certificate of public convenience and necessity shall lapse and terminate if not exercised for a period of one year."

(END OF APPENDIX A)

Issued by California Public Utilities Commission.

Decision No. 78335, Application No. 52050.
