Application No. 53024 Filed November 24, 1971

ORIGINAL

## OPINION

The Pacific Telephone and Telegraph Company seeks an order of the Commission authorizing it to execute and deliver two indentures and to issue and sell, at competitive bidding, \$175,000,000 principal amount of debentures and \$75,000,000 principal amount of notes.

Applicant intends to use the debenture and note proceeds for partial reimbursement of its treasury for capital expenditures. The utility reports that on October 31, 1971, its unreimbursed expenditures amounted to \$1,841,945,042. Upon reimbursement of the company's treasury, applicant contemplates applying \$250,000,000 to reducing the amount of its then outstanding short-term borrowings to an estimated balance of approximately \$50,000,000. Its estimated capital ratios as of February 29, 1972, before and after giving effect to the proposed debenture and note issues, are computed as follows:

	February 29, 1972	Pro <u>forma</u>
Common equity Preferred stock Debentures Seven-year notes	54.0% 1.5 38.9	54.0% 1.5 42.2 1.4
Short-term notes Total	<u> </u>	<u>.9</u> 100.0%

The company proposes to sell said debentures and notes by means of separate public offerings through competitive bidding, the successful bids to determine the respective interest rates. The debentures and notes would be issued under separate indentures to be dated as of February 1, 1972. The debentures would mature February 1, 2003, and the notes would mature February 1, 1979. Each issue would be subject to a restricted redemption provision until February 1, 1977.

After consideration the Commission finds that:

- 1. The proposed debenture and note issues are for proper purposes.
- 2. Applicant has need for external funds for the purposes set forth in this proceeding.
- 3. The proposed restricted redemption provisions are reasonable.

- 4. The proposed indentures would not be adverse to the public interest.
- 5. The money, property or labor to be procured or paid for by the issues of the debentures and notes herein authorized is reasonably required for the purposes specified herein, which purposes, except as otherwise authorized for accrued interest, are not, in whole or in part, reasonably chargeable to operating expenses or to income.

On the basis of the foregoing findings we conclude that the application should be granted. A public hearing is not necessary. The authorization herein granted is for the purpose of this proceeding only and is not to be construed as indicative of amounts to be included in proceedings for the determination of just and reasonable rates.
