ORDER SUSPENDING OPERATING RIGHTS

There are presently pending before the Commission Applications Nos. 52854, 52964 and 52986. In Application No. 52854, Loomis Courier Service, Inc. seeks to have its certificates of public

convenience and necessity to operate as a freight forwarder and express corporation cancelled. Application No. 52964 is one by United Clearings, Inc. seeking similar relief. American Courier Corporation is the applicant in Application No. 52986. American alleges that it is in direct competition with Loomis and United and that Loomis and United have not filed certain tariffs required by law. American seeks alternative relief: (1) that Loomis and United be required to file requisite tariffs or (2) that its operating authority be cancelled or suspended so that it can compete with Loomis and United on equal terms.

The record indicates that while Loomis and United have express corporation operating rights, the Commission has granted them an extension of time, to March 1, 1972, in which to file appropriate tariffs. In the circumstances, the Commission is of the opinion and finds that American's certificate of public convenience and necessity to operate as an express corporation should be temporarily suspended until March 1, 1972.

IT IS ORDERED that the certificate of public convenience and necessity to operate as an express corporation granted to American Courier Corporation by Decision No. 76434 in Application No. 51458 and Decision No. 76236 in Application No. 50963 is hereby suspended until March 1, 1972.

A. 52986 et al. ek

IT IS FURTHER ORDERED that American Courier Corporation shall amend its tariff on file with the Commission, on not less than two days' notice to Commission and the public, to reflect the authority herein granted.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 21st day of DECEMBER, 1971.
