Decision No. 79885

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application
of GIBRALTAR WAREHOUSES, a corpor-
ation, for a certificate of public
convenience and necessity authorizing
the transportation of property
between San Francisco, on the one
hand, and, on the other, Milpitas,
as an extension of present operations.

Application No. 53166
(Filed February 22, 1972)

O P I N I O N

Gibraltar Warehouses, presently engaged as a public utility warehouseman in the City and County of San Francisco, and as a highway common carrier in the transportation of general commodities between San Francisco, on the one hand, and points in the San Francisco Bay Area, on the other hand, requests authority to extend its highway common carrier service between San Francisco, on the one hand, and Milpitas, on the other hand.

Applicant owns and operates 26 units of equipment and, as of December 31, 1971, indicated a net worth in the amount of \$249,924. The proposed service would be daily and overnight. The proposed rates would be as provided in the Commission's Minimum Rate Tariff 2.

It is alleged that applicant is serving warehouse customers which distribute their goods from San Francisco; that during recent months a number of shippers applicant and its predecessors have served for many years in this manner have developed the need for service between San Francisco and Milpitas; that customers of those shippers have moved their plants to Milpitas from points presently served by applicant; that in order to continue to give its shippers at its warehouse the complete service which they have been receiving from applicant, that applicant needs to extend its service to Milpitas; and that applicant does not anticipate that the granting of the application will cause any diversion of traffic from other common carriers.

Copies of the application were served upon the existing carriers with which the proposed service might compete. No protest has been received.

After consideration the Commission finds that public convenience and necessity require the granting of the application. A public hearing is not necessary.

O R D E R

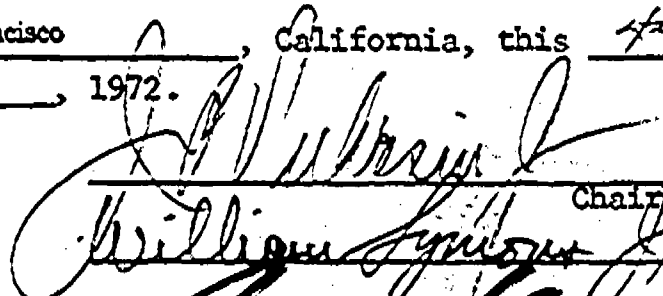

IT IS ORDERED that:

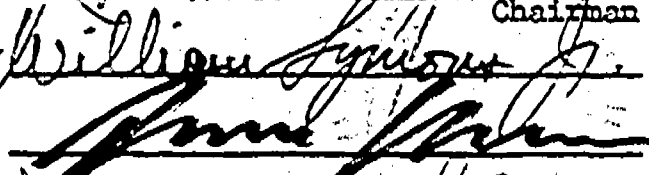

1. Appendix B of Decision No. 78959 dated July 27, 1971 in Application No. 52642 is amended by incorporating First Revised Page 1, attached hereto and by reference made a part hereof.

2. Within sixty days after the effective date hereof, applicant shall amend its tariffs presently on file with this Commission to reflect the authority herein granted.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 4th
day of APRIL, 1972.
