Decision No. 80308

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation into the rates, rules, regulations, charges, allowances and practices of all common carriers, highway carriers and city carriers relating to the transportation of sand, rock, gravel and related items (commodities for which rates are provided in Minimum Rate Tariff Nos. 7 and 17).

Case No. 5437
Petition for Modification
No. 218

(Filed February 16, 1972; Amended March 3, 1972)

E. O. Blackman, for California Dump Truck Owners Association, petitioner. Ernest E. Gallego, for Southern California Rock Products Association, interested party. G. Ralph Grago, for Association of Independent Owner-Operators, interested party. H. F. Kollmyer, A. D. Poe and R. W. Smith, for California Trucking Association, interested party. Harry C. <u>opinio</u>n

Petitioner, the California Dump Truck Owners Association (CDTOA), seeks increases in the hourly rates in Minimum Rate Tariffs 7 and 17 (MRT 7 and 17) which apply as minimum rates for the transportation of rock, sand, gravel and various other materials

in dump truck equipment by for-hire highway carriers. Petitioner alleges that the sought rate increases are needed to offset the effect of increases in operating costs for labor which the carriers have experienced and which are not now reflected in the rates.

Public hearing on petitioner's requests was held before Examiner C. S. Abernathy at Los Angeles on March 24, 1972.

The hourly rates in MRT 7 and 17 are based in part upon wage and allied wage costs which are specified for dump truck drivers in labor agreements negotiated between the teamsters, on the one hand, and various construction industry employer organizations, on the other hand. The record shows that the labor agreements which now apply were negotiated during the latter part of 1971 but prior to November 8, 1971. The agreements state that wage increases shall be granted to drivers of dump trucks on designated dates in 1971, 1972 and 1973. The level of the labor costs to which petitioner would herein have the hourly rates adjusted is that which was in effect on January 1, 1972.

The present hourly rates in MRT 7 and 17 (except those in MRT 7 for the transportation of debris from the demolition of buildings and structures) were established by Decision No. 79674 dated February 1, 1972, in Case No. 5437. The drivers' wage costs upon which said rates are based are those which were in effect on April 30, 1971, in Southern Territory and on May 31, 1971, in Northern Territory. The record shows that the driver wage costs

Southern Territory includes the Counties of Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, San Bernardino, Inyo and Mono. All other counties comprise the Northern Territory which, itself, is subdivided into two districts (Item 315, MRT 7) as follows:

⁽a) Upper Northern District: All of Northern Territory except Kern and San Luis Obispo Counties;

⁽b) Lower Northern District: Kern and San Luis Obispo Counties.

which were in effect on January 1, 1972, are about 79 to 85 cents per hour more than the wage costs reflected in the present rates. 2/

The present hourly rates in MRT 7 for the transportation of debris from the demolition of buildings within Upper Northern District of Northern Territory were established November 15, 1970, by Decision No. 77873, dated October 27, 1970, in Case No. 5437. Those rates which apply in Lower Northern District of Northern Territory and in Southern Territory were established June 1, 1970, by Decision No. 77024, dated March 31, 1970. The driver wage costs which were in effect on January 1, 1972, are 80 cents per hour more than the wage costs reflected in the present rates for Upper Northern District and 85 cents per hour more than the wage costs reflected in the present rates for Lower Northern District and for Southern Territory.

Petitioner states that all of the increases in wage costs which are involved herein have been approved by the Federal Construction Industries Stabilization Commission.

The specific increases in rates which petitioner seeks are 86 cents per hour in the hourly rates which apply in Upper Northern District and 91 cents per hour in the hourly rates which apply in Lower Northern District and in Southern Territory. Petitioner also asks that conforming increases be made in the hourly rates which apply for overtime service. The sought increases of

The increases of 85 cents per hour apply in Southern Territory and in Lower Northern District. The increases of about 79 cents per hour apply in Upper Northern District.

86 and 91 cents per hour include a 6-cent-per-hour provision for profit on the increased costs which petitioner asks be also allowed. 3/

The granting of petitioner's requests in full was opposed by the California Asphalt Pavement Association and by the Triskelion Corporation. Representatives of these organizations developed that the increases in labor costs which are the basis of this petition would not be experienced by a number of the carriers engaged in dump truck transportation (owner-operators, in particular). They asserted, therefore, that increases in the rates for such carriers should not be made.

Discussion

It is evident from the record which has been adduced in this matter that those carriers who are governed by the wage agreements currently in effect and who are engaged in the transportation involved herein have experienced increases of 79 to 85 cents per hour in their wage costs over the wage costs for which provision is included in the present minimum hourly rates in MRT 7 and 17 for said transportation. Clearly, as to such carriers, adjustments in the rates to compensate for the increased costs should be made in order that the rates may be continued at a just and reasonable level. However, the increased rates should apply to the same transportation performed by other for-hire highway carriers also. The Commission for years heretofore has accepted the wage costs under the wage agreements as determinative

Petitioner's request for increases of 86 cents per hour in the rates for Upper Northern District presume that the increase in wage costs over those which are reflected in the present rates for commodities other than debris was 80 cents an hour instead of 79 cents an hour, the actual differential.

of the wage costs of the carriers generally in effecting minimum rate adjustments involving the rates in MRT 7 and 17. Experience in the past has not disclosed that the resultant rates have been improper as minimum rates. In the light of past experience we are of the opinion that this practice should be continued in this instance.

The increases in rates which would compensate for the increases in the carriers' labor costs for straight time service range from about 4.25 to 6.5 percent. The increases would average about 5.5 percent. Inclusion in said increases of the provision for profit which petitioner requested would augment the increases by about .3 to .5 percent.

In concluding what increases should be prescribed, we must take into consideration the objectives and requirements of the Federal Economic Stabilization Act of 1970 and amendments thereto. In the circumstances we are of the opinion that the increases should be limited to only those needed to compensate for the increases in costs.

Findings

Upon consideration of the record we find that:

1. Pursuant to wage agreements which are currently in effect, the labor costs for wages and related fringe benefits of for-hire highway carriers who are subject to said agreements

The increases which petitioner requests in the rates for overtime service are about 50 percent more than those for straight
time service. However, petitioner's requests in this respect
were not supported by specific evidence inasmuch as the summaries of the labor agreements which petitioner submitted do
not specify how much, or under what conditions, overtime
payments are applicable.

and who are engaged in transportation subject to the hourly rates in MRT 7 and 17 are, and have been since January 1, 1972, 79 to 85 cents an hour more than the labor costs for which provision is included at present in said hourly rates in MRT 7 and 17.

- 2. For the purposes of this petition the labor costs which were in effect on January 1, 1972, under said agreements will be accepted as representing the present level of the labor costs of for-hire highway carriers engaged in transportation subject to the hourly rates in MRT 7 and 17.
- 3. In relation to the carriers' costs of service as of January 1, 1972, the hourly rates in MRT 7 and 17 are unreasonably low and insufficient.
 - 4. The following increases in rates are justified:
 - 79 cents per hour in rates in Item 360, MRT 7;
 - 80 cents per hour in rates in Item 367, MRT 7, for Upper Northern District:
 - 85 cents per hour in rates in Items 361 and 365, MRT 7, and in rates in Item 367, MRT 7, for Lower Northern District and Southern Territory;
 - 85 cents per hour in rates in Item 2210, MRT 17.
- 5. Increases in the hourly rates, as found justified in the above Finding No. 4, are consistent with objectives and requirements of the Federal Stabilization Act of 1970 and amendments thereto.

Conclusions

We conclude that Petition for Modification No. 218 should be granted, and MRT Nos. 7 and 17 should be amended, in accordance with the findings herein subject to a common effective date. In other respects said petition should be denied.

ORDER

IT IS ORDERED that:

- 1. Minimum Rate Tariff 7 (Appendix A of Decision No. 32566, as amended) is hereby further amended by incorporating therein, to become effective September 2, 1972, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix are made a part hereof by this reference.
- 2. In all other respects said Decision No. 32566, as amended, shall remain in full force and effect.
- 3. Minimum Rate Tariff 17 (Appendix B to Decision No. 69469, as amended) is hereby further amended by incorporating therein to become effective September 2, 1972, the revised pages attached hereto and listed in Appendix B, also attached hereto, which pages and appendix are made a part hereof by this reference.
- 4. In all other respects said Decision No. 69469, as amended, shall remain in full force and effect.
- 5. Except as is otherwise provided through this order, Petition for Modification No. 218 in Case No. 5437 is denied.

The effective date of this order shall be twenty-four days after the date hereof.

#### SECTION 22-HOURLY RATES

ITEM:

#### APPLICATION OF HOURLY RATES NAMED IN ITEM 2210

The hourly rates in Item 2210 apply to the territories described in:

- 1. Item 140 for the commodities described in Items 65 and 290, and
- Item 141 for the commodities described in Item 60 when free time allowance has expired (See Item 310).

They also apply to the accessorial charges provided in Item 310. Hourly rates include driver's wages and apply to the transportation of property for one shipper in one unit of dump truck equipment.

#### COLUMN "C" rates apply:

- (a) to transportation of commodities subject to Note 3 of Item 65, and/or
- (b) as provided in Item 310 (Accessorial Charges).

COLUMN "D" rates apply only when specific reference is made hereto (see Item 310).

### NOTE 1 .--

*(a) For transportation service furnished under Item 2210 on Sundays and/or New Year's Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day, add to the applicable hourly rate in Item 2210: \$7.41 per hour.

*2220

*(b) Except as otherwise provided in paragraph (a) of this note and in the Exception set forth below, for transportation service furnished under Etem 2210 on Saturdays or during periods in excess of 8 hours in any one shift, add to the applicable hourly rate shown in Item 2210: \$4.31 per hour. "Periods in excess of 8 hours in any one shift" means the time which exceeds 8 hours from the time the driver with dump truck equipment reports for service, during which time said driver is continuously engaged by one shipper or overlying carrier, irrespective of the number of loads transported within the period.

EXCEPTION.—The additional rates set forth in paragraph (b) shall not apply to transportation service performed on days, other than Saturdays, except when service is performed by one driver with dump truck equipment for a period in excess of 8 hours in any one shift.

NOTE 2.—The application of hourly rates for transportation performed under the provisions of Note 3 of Item 65 is subject to the following conditions:

- (a) In determining chargeable time, the over-all time shall be: From time reporting for work to start of last trip plus double the running time of last trip plus unloading time of last load.
- (b) In determining chargeable time, allowances may be made only for delays caused by failure of carrier equipment or time taken out for meals. Time to be charged shall include time for transportation in both directions, time for loading and unloading and waiting or stand-by time at origin or destination.
- (c) In the event that a carrier is released by the shipper from further service and is re-engaged by the same shipper at a point other than the point of such release within the same 24-hour period (computed from 12:01 a.m. on the date the unit of equipment initially reports for service), hourly rates shall be assessed for the travelling time from the point of release to the subsequent origin point.

^{*} CHANGE, NEITHER INCREASE NOR REDUCTION

C. 5437, Pet. 218 - SW/gf *Certificate of the Public Utilities Commission of the State of California Re Increases in Rates for Certain Transportation Services Performed by For-Hire Highway Carriers within California Pursuant to provisions of Section 300.16 of the Economic Stabilization Act Amendments of 1971, the Public Utilities Commission of the State of California (Cal. P.U.C.) does hereby certify to the Federal Price Commission as follows: That the increases in rates which are ordered by the attached decision apply to rates which the Cal. P.U.C. has heretofore established as minimum rates for the transportation of property within California by for-hire highway carriers operating dump truck equipment in reasonably efficient circumstances. Said increases average about 5½ percent. That said rate increases are cost-based and do not reflect future inflationary expectations. That said rate increases are the minimum required to assure continued, adequate and safe service by carriers engaged in for-hire highway transportation by dump truck equipment within California. That the dollar amount of the increased revenue which the increases in rates are expected to provide the carriers collectively is about \$7,000,000 annually. 5. That said rate increases will not increase the carriers' overall rate of return on capital. 6. That with exception of Paragraph 4, above, sufficient evidence was taken at public hearings held before the Cal. P.U.C. in connection with said rate increases to support the certification herein made, and that as to Paragraph 4, the amount therein stated is an estimate inasmuch as more specific information in this respect is not available.
