## Decision No. 80573

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation ) into the rates, rules, regulations, ) charges, allowances, and practices ) of all common carriers and highway ) carriers relating to the trans- ) portation of petroleum and petroleum ) products in bulk (commodities for ) which rates are provided in Minimum ) Rate Tariff 6-A)

Case No. 5436 Petition for Modification No. 117

## SUPPLEMENTAL OPINION AND ORDER

By Decision No. S0424 dated August 29, 1972, in the above proceeding, the Commission authorized increases in the minimum rates and charges named in Minimum Rate Tariff 6-A for the statewide transportation of petroleum and petroleum products in bulk in tank vehicles by petroleum contract carriers. Such revisions in the minimum rates and charges are scheduled to become effective October 7, 1972.

It has come to the Commission's attention that, inadvertently, one rate was published in error and should be corrected.

In the circumstances, it appears, and the Commission finds, that the necessary correction should be made by the order herein. A public hearing is not necessary. The Commission concludes that Minimum Rate Tariff 6-A should be amended accordingly.

IT IS ORDERED that:

1. Minimum Rate Tariff 6-A (Appendix A of Decision No. 67154, as amended) is further amended by incorporating therein to become

effective October 7, 1972, Eleventh Revised Page 22, attached hereto, and by this reference made a part hereof.

2. Tariff publications required or authorized to be made by common carriers as a result of the order herein shall be filed not carlier than the effective date of this order and may be made effective not earlier than October 7, 1972, on not less than one day's notice to the Commission and to the public; such tariff publications as are required shall be made effective not later than October 7, 1972; and as to tariff publications which are authorized but not required, the authority herein granted shall expire unless exercised within sixty days after the effective date hereof.

3. Common carriers subject to the Public Utilities Act, to the extent that they are subject also to Decision No. 67154, as amended, are hereby directed to establish in their tariffs the amendments necessary to conform with the further adjustment ordered herein.

4. Common carriers maintaining rates on a level other than the minimum rates for transportation for which rates are prescribed in Minimum Rate Tariff 6-A are authorized to increase such rates by the same amounts authorized for Minimum Rate Tariff 6-A rates herein.

5. Common carriers, in establishing and maintaining the rate authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and

schedules containing the rate published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects said Decision No. 67154, as amended, shall remain in full force and effect.

The effective date of this order shall be the date hereof.

Dated at San Francisco, California, this 3. day of October, 1972.
