Decision No.

80820

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation) into the rates, rules, regulations,) charges, allowances and practices) of all common carriers, highway carriers and city carriers relating to the transportation of any and all commodities between and within all points and places in the State of California (including, but not limited to, transportation for which rates are provided in Minimum Rate Tariff No. 2).

Case No. 5432
(Petition for Modification No. 718)
(Filed October 24, 1972)

AND RELATED MATTER

Case No. 7858

OPINION AND ORDER

By this petition, International Business Machines Corporation (IBM) seeks amendment of the liberalized packing rules in Exception Ratings Tariff 1 (ERT 1) to include therein provisions permitting the transportation of "adding or computing machines and typewriters and computing machines, combined," when shipped loose, in van-type vehicles equipped with pads and other protective materials, at the lower rates which apply to such articles when shipped in accordance with the packing requirements of National Motor Freight Classification A-12.

¹ The rule is set forth in detail in Item 1850 of ERT 1.

Petitioner states that, prior to April 30, 1971, all of the business machines of IBM moved loose between points in California by highway carriers under the provisions of the liberalized packing rules set forth in various Commission minimum rate tariffs. Petitioner points out that, on April 30, 1971, the liberalized packing rules were canceled and the Commission in its Decision No. 78597 provided an exception rule in Item 1850 of ERT 1 to permit the business machines of IBM to continue to move loose without penalty. Petitioner declares that a question has been raised concerning the adequacy of the language in this rule to cover all machines of IBM which formerly moved loose under the provisions of the canceled liberalized packing rules. Petitioner contends that the proposed modification of Item 1850 will serve to eliminate the concern of those who question the rule in its present form.

The verified petition shows that a copy thereof was mailed to the California Trucking Association on or about October 24, 1972. The petition was listed on the Commission's Daily Calendar of October 26, 1972. No objection to the granting of the petition has been received.

In the circumstances, it appears, and the Commission finds, that the proposed tariff amendment is reasonable and that the resulting minimum rates will be just, reasonable and nondiscriminatory minimum rates for the transportation involved. A public hearing is not necessary. The Commission concludes that the petition should be granted.

IT IS ORDERED that:

1. Exception Ratings Tariff 1 (Appendix A to Decision No. 66195, as amended) is hereby further amended by incorporating therein, to become effective January 13, 1973, Thirty-fifth Revised Page 3 and Third Revised Page 27-WWWW attached hereto and by this reference made a part hereof.

- 2. Common carriers subject to the Public Utilities Act, to the extent that they are subject to Decision No. 66195, as amended are hereby authorized to establish in their tariffs the amendments necessary to conform with the further adjustments ordered herein.
- 3. Tariff publications authorized to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.
- 4. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.
- 5. In all other respects Decision No. 66195, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty-four days after the date hereof.

Dated at San Francisco, California, this 12 day of December, 1972.

Commissioner J. P. Vukasin. Jr., being necessarily absent, did not participate in the disposition of this proceeding.
