In the Matter of the Investigation

charges, allowances, and practices
of all common carriers, highway
carriers, and city carriers relating
to the transportation of sand, rock,
gravel, and related items (commodities)
for which rates are provided in

Case No. 5437
Order Setting Hearing
213
(Dated August 10, 1971)

ORDER PARTIALLY DISCONTINUING PROCEEDING

The Commission's Order Setting Hearing 213 issued August 10, 1971 stated that a public hearing should be held for the receipt of evidence relative to the adjustments and/or establishment of the following minimum rates, rules, and regulations for transportation of property in dump trucks:

1. Statewide distance and hourly rates.
2. Statewide rates and rules for transportation by a carrier who provides a driver and power unit of equipment without trailing equipment.

Part 1, viz., statewide distance and hourly rates was submitted on November 15, 1972, following 59 days of public hearing. Part 2, viz., statewide rates and rules for transportation by a carrier who provides a driver and power unit of equipment without trailing equipment, was continued to a date to be set.

In view of the many issues raised in Part 1, and the lengthy record adduced in connection therewith, it appears that Part 2 should be discontinued and a separate Order Setting Hearing concurrently should be issued to receive evidence with respect to rates for power unit and driver without trailing equipment.

Therefore, good cause appearing, IT IS ORDERED that:

1. Order Setting Hearing 213 in Case No. 5437 is discontinued with respect to Part 2, viz., statewide rates and rules for transportation by a carrier who provides a driver and a power unit of equipment without trailing equipment.

2. Part 1 of Order Setting Hearing 213, viz., statewide distance and hourly rates, is continued in full force and effect and a decision in that phase will be issued.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 16th
day of JANUARY, 1973.
