 financing in the amount of approx-)
 imately \$300,000,000 by the offering)
 of not more than 17,444,830 common)
 shares for subscription and sale for)
 cash to the holders of its common)
 and preferred shares.)

Application No. 53307
 (Filed January 26, 1973)

James A. DeBois, Attorney at Law, for applicant.
Sidney J. Webb, for the Commission staff.

O P I N I O N

The Pacific Telephone and Telegraph Company seeks authority to issue and sell not exceeding 17,444,830 shares of its \$14-2/7 par value common stock in order to realize proceeds approximating \$300,000,000.

After due notice, a public hearing on the above-entitled matter was held before Examiner Donovan in San Francisco on February 23, 1973, at the conclusion of which the matter was taken under submission. The Commission has received no protests in the proceeding.

Applicant states that it proposes to use the common stock proceeds for partial reimbursement of its treasury for unreimbursed capital expenditures amounting to \$2,101,200,391 on November 30, 1972. By Decision No. 80347, dated August 8, 1972, the Commission, among other things, ordered applicant herein to install at least \$750,000,000 of plant additions during the year 1973. Following reimbursement of the company's treasury on or about June 29, 1973,

the utility contemplates applying approximately \$300,000,000 to reducing its then outstanding short-term borrowings to an estimated amount of approximately \$50,000,000.

On or about June 7, 1973, applicant intends to mail to the shareholders of record on May 25, 1973, warrants evidencing rights to subscribe for the additional common shares. Such rights would expire at the close of business on June 29, 1973. The subscription price would be not less than 89% of the closing market price of applicant's common shares on the New York Stock Exchange on the day on which such shares are traded on such exchange next preceding the day on which the Registration Statement relating to such shares becomes effective. American Telephone and Telegraph Company owns approximately 90% of applicant's outstanding capital stock.

In order to realize proceeds approximating \$300,000,000, applicant proposes to make the offering to its shareholders in the ratio of one common share for each nine common shares outstanding and seven common shares for each nine preferred shares outstanding if the market price used in setting the subscription price is \$20.50 or less. The 17,444,830 additional shares of common stock are determined by adding seven-ninths of the 320,000 outstanding shares of \$100 par value preferred stock to one-ninth of the 151,263,473 outstanding shares of \$14-2/7 par value common stock.

If the market price used in setting the subscription price is more than \$20.50, applicant proposes to make the offering in the ratio of one common share for each ten common shares outstanding and seven common shares for each ten preferred shares outstanding, which would involve an offering of 15,700,347 common shares.

Assuming that the proposed offering of common shares would yield \$300,000,000, applicant estimates that its debt ratio would be 46.0% at December 31, 1973, and would average 47.1% for the year 1973.

After consideration of the application, testimony and exhibits, and noting the absence of any opposition, we find that:

1. The proposed common stock issue is for a proper purpose.
2. Applicant has need for external funds for the purpose set forth in this proceeding.
3. The terms and conditions of the proposed common stock offering are reasonable.
4. The Commission has ordered applicant to install at least \$750,000,000 of plant additions during the current year.
5. The money, property or labor to be procured or paid for by the issue of the common stock herein authorized is reasonably required for the purpose specified herein, which purpose is not, in whole or in part, reasonably chargeable to operating expenses or to income.

On the basis of the foregoing findings we conclude that the application should be granted. In issuing our order herein, we place applicant and its shareholders on notice that we do not regard the number of shares outstanding, the total par value of the shares nor the dividends paid as measuring the return it should be allowed to earn on its investment in plant, and that the authorization herein granted is not to be construed as a finding of the value of the company's stock or properties nor as indicative of amounts to be included in proceedings for the determination of just and reasonable rates.

O R D E R

IT IS ORDERED that:

1. The Pacific Telephone and Telegraph Company may offer for sale for cash, in the manner and at a price to be determined as set forth in the foregoing opinion, not exceeding 17,444,830 additional shares of its common stock.

2. The Pacific Telephone and Telegraph Company may issue warrants evidencing the right to subscribe for the additional shares to be offered pursuant to Ordering Paragraph No. 1 hereof.

3. The Pacific Telephone and Telegraph Company may issue and sell, at a price determined in accordance with Ordering Paragraph No. 1 hereof, such of its not exceeding 17,444,830 additional common shares as shall be subscribed for pursuant to the exercise of said warrants.

4. Upon receipt of properly executed subscriptions and the necessary funds, The Pacific Telephone and Telegraph Company may issue certificates for the appropriate number of its common shares.

5. The Pacific Telephone and Telegraph Company shall use the proceeds to be derived from the issuance and sale of said stock to reimburse, so far as possible, its treasury for funds expended as set forth in the application.

6. Promptly after The Pacific Telephone and Telegraph Company determines the precise number of shares of stock to be offered and the price at which the shares are to be offered, it shall notify the Commission of each in writing.

7. As soon as available, The Pacific Telephone and Telegraph Company shall file with the Commission three copies of its prospectus relating to the common stock herein authorized.

8. Within thirty days after the closing date of subscriptions for shares of stock herein authorized to be issued, The Pacific Telephone and Telegraph Company shall file with the Commission a report showing the number of shares of stock subscribed for by American Telephone and Telegraph Company, the number of shares of stock subscribed for by others, and the consideration received. Such statement shall be in lieu of a report under General Order No. 24-B.

9. This order shall become effective when The Pacific Telephone and Telegraph Company has paid the fee prescribed by Section 1904.1 of the Public Utilities Code. Any authority herein granted will expire if not exercised on or before November 1, 1973.

Dated at San Francisco, California,
this 13th day of MARCH, 1973.
