Decision No. S1235

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation) into the rates, rules, regulations,) charges, allowances and practices) of all common carriers, highway) carriers and city carriers relating to the transportation of property by vacuum-type and pump-type) tank vehicles (including transportation for which rates are provided in Minimum Rate Tariff No. 13).

Case No. 6008
(Petition for Modification No. 21)
(Filed December 21, 1972)

CPINION AND ORDER

Minimum Rate Tariff 13 (MRT 13) names minimum rates and rules for the statewide transportation of property by highway carriers in vacuum- or pump-type tank vehicles. By this petition, California Trucking Association seeks the establishment of volume tender rates and provisions in MRT 13 on an experimental basis for at least one year.

Petitioner asserts that vacuum— and pump—type tank vehicle operators in California believe that the proposed volume tender rates would provide them an opportunity to capture some of the traffic moving in proprietary transportation. Petitioner alleges that, with volume tender rates, the carriers would be able to accomplish increased equipment utilization and improved efficiency through better dispatching techniques. Petitioner declares that the carriers would be able to operate at lower costs and thus provide lower rates and charges in those instances where large quantities would be tendered at one time. Petitioner avers that the volume tender rates would provide shippers with an incentive

¹ The proposed rates and provisions are set forth in Exhibit A attached to the petition.

for tendering their shipments in a manner which would enable the carriers to lower their operating costs through increased equipment utilization.

Copies of the petition were mailed to various oil companies and carrier representatives. The petition was listed on the Commission's Daily Calendar of December 26, 1972. No objection to the granting of the petition has been received.

Commission staff analysis indicates that the proposed rate levels would be 92½ percent of the current rate levels in Territory "A" for a minimum of 40 hours of equipment utilization in any 120-hour period and 85 percent of the current rate levels in Territory "A" for a minimum of 80 hours in any 120-hour period. The proposed rates would apply only when the shipper enters into a written agreement with the carrier prior to the transportation of the property and the service would be limited to that performed within a radius of 250-air miles from the base of operations. They would be applicable in both Territory "A" and Territory "B". The carriers would obtain better utilization of their vehicular equipment and the shippers would benefit from the proposed reduction in rates. The staff recommends that the petition be granted by ex parte order.

In the circumstances, the Commission finds that the proposal is reasonable and the resulting minimum rates and provisions will be just, reasonable and nondiscriminatory minimum rates and provisions for the transportation involved. A public

hearing is not necessary. The Commission concludes that the petition should be granted.

IT IS ORDERED that:

- 1. Minimum Rate Tariff 13 (Appendix B to Decision No. 55584, as amended) is hereby further amended by incorporating therein, to become effective May 5, 1973, the revised pages attached hereto and listed in Appendix A also attached hereto, which pages and appendix are by this reference made a part hereof.
- 2. Common carriers subject to the Public Utilities Act, to the extent that they are subject to Decision No. 55584, as amended, are hereby authorized to establish in their tariffs the amendments necessary to conform with the further adjustments ordered herein.
- 3. Tariff publications authorized to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than the fifth day after the effective date of this order on not less than five days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.
- 4. Common carriers, in establishing and maintaining the rates authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects Decision No. 55584, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 3th day of April, 1973.

SECTION 1--RULES OF GENERAL APPLICATION (Continued) TTEM APPLICATION OF TARIFF--COMMODITIES Rates in this tariff apply for the transportation of the following commodities: Commodities in semi-plastic form: Commodities in suspension in liquids, and, Liquids; when such transportation is incidental to the construction, operation or maintenance of oil or gas wells, oil pipe lines or oil storage facilities (See Exceptions) -EXCEPTIONS. -- The rates in this tariff do not apply to the following: Transportation for which rates are provided in Minimum 40 Rate Tariff 6-A. (b) Transportation of property for the United States or property transferred under an agreement whereby the United States contracted for the carrier's services. (c) Disaster Supplies, i.e., those commodities which are allocated to provide relief during a state of extreme emergency or state of disaster; and those commodities which are transported for a civil defense or disaster organization established and functioning in accordance with the California Disaster Act to ultimate point of storage or use prior to or during a state of disaster or state of extreme emergency. APPLICATION OF RATES Rates include the services of the vehicle and driver only. For charges for helpers, see Item 60. Charges shall be based upon the capacity of equipment ordered, except that if a ø50 carrier is unable to furnish the capacity ordered and substitutes larger equipment, charges shall be for the capacity of the equipment ordered or for equipment of capacity corresponding to the barrels of property transported, whichever is the greater. When the transportation performed extends between two territories, the higher rated territory in or through which any service is performed shall determine the applicable hourly rate. *See Item 300 for application of rates in Volume Tender Service. s Change Decision No. * Addition)

(1) COLLECTION OF CHARGES

*(See Item 330 for collection of charges in Volume Tender Service.)

- (a) Except as otherwise provided in this rule, transportation and accessorial charges shall be collected by the carriers prior to relinquishing physical possession of shipments entrusted to them for transportation.
- (b) Upon taking precautions deemed by them to be sufficient to assure payment of charges within the credit period herein specified, carriers may relinquish possession of freight in advance of the payment of the charges thereon and may extend credit in the amount of such charges to those who undertake to pay them, such persons herein being called debtors, for a period of seven days, excluding Saturdays, Sundays, and legal holidays. When the freight bill covering a shipment is presented to the debtor on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following delivery of the freight. When the freight bill is not presented to the debtor on or before the date of delivery, the credit period shall run from the first 12 o'clock midnight following the presentation of the freight bill.
- (c) Where a carrier has relinquished possession of freight and collected the amount of charges represented in a freight bill presented by it as the total amount of such charges, and another freight bill for additional charges is thereafter presented to the debtor, the carrier may extend credit in the amount of such additional charges for a period of 30 calendar days to be computed from the first 12 o'clock midnight following the presentation of the subsequently presented freight bill.
- (d) Freight bills for all transportation and accessorial charges shall be presented to the debtors within seven calendar days from the first 12 o'clock midnight following delivery of the freight.
- (e) Debtors may elect to have their freight bills presented by means of the United States mail, and when the mail service is so used the time of mailing by the carrier, as evidenced by the postmark, shall be deemed to be the time of presentation of the freight bills.
- (f) The mailing by the debtor of valid checks, drafts, or money orders, which are satisfactory to the carrier, in payment of freight charges within the credit period allowed such debtor may be deemed to be the collection of the charges within the credit period for the purpose of these rules. In case of dispute as to the time of mailing, the postmark shall be accepted as showing such time.
- (1) Will not apply to the transportation of property for the United States, state, county or municipal governments.

SECTION 1--RULES OF CENTRAL APPLICATION (Continued)

III

£140

ISSUANCE OF SHIPPING DOCUMENT

A shipping document (either in individual or manifest form) shall be issued by the carrier to the shipper for each engagement for transportation. The shipping document shall show the following information:

- (1) Name of carrier.
- (2) Date of engagement.
- (3) Address at which shipper is to be billed.
- (4) Description of the property to be transported.
- (5) Capacity of equipment, in barrels, ordered or furnished.
- (6) Point at which equipment is to begin its engagement for transportation.
- Type of equipment ordered or furnished (vacuum or pump tank truck, trailer or semitrailer).
- Whether equipment furnished with driver only or with driver and helper.
- Time of reporting for service of each driver and equipment and each helper (See Note).
- Time of completion of service of each driver and equipment and each (10)helper (See Note).

- (11) Time deductible from the clapsed time between (9) and (10) above, including the reason for such deduction, for each driver and equipment and each helper (See Note).
- (12) The net time after deduction of (11) from the elapsed time between (9) and (10) for each driver and equipment and each helper (See Note).
- (13) Rate and charge assessed.
- (14) Signature of carrier or his agent.

sine form of shipping document in Item 400 will be suitable and proper.

A copy of each shipping document, freight bill, accessorial service document. weighmaster's certificate, written instructions, written agreement, written request or any other written document which supports the rates and charges assessed and which the carrier is required to issue, receive or obtain by this tariff for any transportation or accessorial service shall be retained and preserved by the carrier, at a location within the State of California, subject to the Commission's inspection, for a period of not less than three years from the date of issue.

NOTE: -- Times for (1) each driver and equipment and (2) for helper(s) must be shown separately.

	SECTION 3VOLUME TENDER RATES	ITEM
	LOW YOUNGAL AND INSTITUTE PROMISED DISTING	
(2)	APPLICATION OF VOLUME TENDER RATES Rates in Section 3 apply only when, prior to the transportation of the property, the shipper enters into a written agreement with the carrier as provided in Item 310 and only when the property is transported by one carrier for one shipper. When such agreement is executed, rates otherwise provided in this tariff will not apply.	
(b)	The rates shall be governed by the territorial descriptions named in Item 200.	
(c)	The rates herein are limited to service performed within a radius of 250 air miles from the base of operations designated in the written agreement provisions of Item 310, which written agreement may not be combined nor construed so as to permit one-way operations in excess of 250 air miles.	
(a)	Rates in this Section apply as follows:	\ :
	(1) Driver and Equipment: The number of hours of service shall be computed from the time the carrier's equipment leaves the carrier's terminal until the time carrier's equipment returns to said terminal.	7
	 (2) Helpers: The helper's hours of service for each service shall be computed from the time helper is engaged to perform loading, unloading, or other related service or is required to ride carrier's vehicle, whichever is earlier, and ending at the time the loading, unloading, or other related service is completed, or the helper is returned to the point at which he was engaged at start of service whichever is later. (3) Allowances shall be made for delays due to failure of carrier's equipment or time 	
	taken out for meals. (4) When the service performed extends over more than one day and the equipment is not returned to carrier's terminal the period of time the driver and/or helper is off-	
	duty shall not be included in the hours of service. (5) When shipper requests that vehicle covered by volume tender provisions remain at a location other than carrier's terminal when not in operation, there shall be an accessorial charge as provided in Item 60 for driver's travel time to and from carrier's terminal to location where vehicle is parked.	
	(6) After the total time has been computed it shall be converted into hours and fractions thereof. Fractions of an hour shall be determined in accordance with the following table:	(E) ***** 300
	MINUTES BUT NOT OVER OVER 0 8	
	 38 60	
(%)		
(£)	The rates in Items 340 and 350 include the service of the driver only. When the carrier furnishes help in addition to the driver, the additional charges as provided in Item 360 will be assessed.	
(a)	Rates do not include dumping and/or washout charges, weighmaster fees, bridge or ferry tolls. Such charges, fees and tolls when incurred by the carrier, shall be added to the transportation charges.	
(A)	When in response to shipper's request carrier's equipment is painted, lettered or marked, or when special equipment or accessories, e.g., forklifts, uniforms, etc., are furnished by the carrier, in connection with transportation which is performed subject to the rates named in this section, a reasonable charge therefor shall be made by the carrier against the shipper. In no event shall the charge be less than the cost of the painting, lettering or marking or the costs applicable to the use of the special equipment or accessories.

SECTION 3VOLUME TENDER RATES (Continued)	ITEM
WRITTEN AGREDIENT	
Prior to the transportation of the property, the shipper must enter into a written agreement with the carrier. This agreement shall show:	
(a) Provisions agreeing to the rules and regulations of this tariff and to rates in this tariff.(b) A clause governing adjustment of the rates and charges in the event that the	
provisions of this tariff are changed. (c) Date transportation service is to commence.	
(d) Type of carrier's motor power equipment. (e) Type of semi-trailer equipment, when applicable. (f) Identification of each piece of equipment either by license number or otherwise. (g) Capacity of each unit of equipment. (h) Base of operations.	(II) #06 310
(h) Base of operations. (i) Base rate. (j) Rate for accessorial equipment. (k) Duration of the written agreement.	
(1) The agreement shall be in substantially the form set forth in Item 410 and the original or a copy thereof shall be retained and preserved by the carrier, at a location within the State of California, subject to Commission's inspection, for a period of not less than three years from the date of its issuance.	
COLLECTION OF CHARGES	
(a) Within 7 calendar days after the billing date, the carrier shall present a bill to the shipper which shall show the following information:	
 (1) The transaction period. (2) Identification and type of each unit of carrier's equipment. (3) Base rate for each unit of equipment. (4) Number of miles operated. 	
 (4) Number of miles operated. (5) Rate for premium pay and excess hours and number of hours, when applicable. (6) Rate for holiday service and dates of such service, when performed. 	
(7) Rate per hour for helpers and number of hours used. (8) Additional charges and explanation of each.	
(b) The billing date referred to in paragraph (a) shall be the fifth day after commencement of service as provided in the written agreement.	m
PROVIDED HOWEVER: That when the billing date determined above falls on a Saturday, Sunday or holiday, said billing date is extended to the following day other than Saturday, Sunday or holiday.	(E) 330
(c) The form of document in Item 420 will be suitable and proper. A copy of each freight bill shall be retained and preserved by the issuing carrier, at a location within the State of California, subject to the Commission's inspection, for a period of not less than three years from the date of its issuance.	
(d) Carriers may extend credit to shippers for a period not to exceed 7 days, follow- ing Sunday and holidays, from the first 12 o'clock midnight following presentation of the freight bill.	
(e) Where a carrier has collected the amount of charges represented in a freight bill presented by it as the total amount of such charges, and another freight bill for additional charges is thereafter presented to the shipper, the carrier may extend credit in the amount of such additional charges for a period of 30 calendar days to be computed from the first 12 o'clock midnight following the presentation of the subsequently presented freight bill.
