Decision No. 81276

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation)
into the rates, rules, regulations,) charges, allowances and practices)
of all common carriers, highway) carriers and city carriers relating)
carriers and city carriers relating) to the transportation of sand,
rock, gravel and related items) (commodities for which rates are
provided in Minimum Rate Tariff)
No. 17-A).)

Case No. 5437
Petition for Modification
No. 235

OPINION AND ORDER

Minimum Rate Tariff 17-A (MRT 17-A) names minimum rates for the transportation by dump truck carriers of property including rock, sand and gravel. These rates include zone rates which apply from defined production areas to designated delivery zones and area-to-point rates which apply from defined production areas to specified delivery points. By this petition, P. W. Gillibrand Company seeks certain modifications in MRT 17-A to incorporate a new freeway segment in the Southern Territory traverses and for revision of affected zone rates to reflect reduced traverse times and miles resulting therefrom.

Petitioner states that it operates from commercial rock production facilities in Los Angeles and Ventura Counties and ships substantial quantities of rock, sand and gravel into delivery zones described in MRT 17-A utilizing the services of for-hire dump truck carriers. Petitioner declares that its Soledad Canyon facility is listed in MRT 17-A as Production Area 19-KK and that rates from said production area to Los Angeles County delivery zones were initially established by the Commission effective July 19, 1969, pursuant to Decision No. 75741. Petitioner alleges

that periodic general revisions in such rates have been made in accordance with economic trends and that traverses forming the basis for the rates in question were predicated upon dump truck carriers traveling over portions of the old Antelope Valley Freeway, Soledad Canyon Road and Sierra Highway. Petitioner avers that dump truck carriers are now utilizing 6.5 miles of the new Antelope Valley Freeway between San Fernando Road and the southern end of the old Antelope Valley Freeway to reach the Los Angeles County zones. Petitioner points out that the transit times from Production Areas 19-A, 19-KK, 19-LL and 19-MM to Los Angeles County zones have decreased and that the existing rates do not reflect reasonable current travel times and distances.

Attached to the petition as Appendix B is a report of actual roundtrip traverse times for typical equipment using the new freeway route as developed by petitioner. The Commission's Transportation Division staff has verified the traverse data submitted by petitioner and, predicated on these data revised cost figures have been calculated and corresponding rates have been revised in accordance with the established formulas.

Copies of the verified petition were served on interested parties on or about October 12, 1972. The petition was listed on the Commission's Daily Calendar of October 17, 1972. No objection to the requested ex parte handling of the matter has been received.

In the circumstances, the Commission finds that the revised rates herein proposed will be just, reasonable and non-discriminatory minimum rates for the transportation involved. A public hearing is not necessary. The Commission concludes that the petition should be granted.

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (Appendix C to Decision No. 80578, as amended) is hereby further amended by incorporating therin, to become effective May 19, 1973, the revised pages attached hereto and listed in Appendix A, also attached hereto, which pages and appendix are made a part hereof.
2. In all other respects Decision No. 80578, as amended, shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 17th day of April, 1973.
