 Public Utilities Code. )

OPINION AND ORDER

By this application Western Motor Tariff Bureau, Inc. (WMTB), on behalf of Culy Transportation, Inc. doing business as Cal-Canadian Motor Express (Cal-Canadian), seeks authority to publish tariff rules necessary to permit Cal-Canadian to avail itself of trailer-on-flatcar facilities of Southern Pacific Transportation Company as a substitute for highway service between Los Angeles and Bakersfield, Fresno and Stockton.<sup>1</sup> Authority is also sought under Sections 490 and 491 of the Public Utilities Code to permit publication of the proposed tariff provisions and to establish such proposed provisions on five days' notice to the Commission and to the public, respectively.

Cal-Canadian possesses a certificate of public convenience and necessity from this Commission authorizing service between the points for which substituted rail service authority is sought herein. The rates published for the account of Cal-Canadian for service performed entirely by truck will be assessed the shipper when Southern Pacific Transportation Company substitutes its service for that of

Cal-Canadian at the option of the latter. The proposed tariff would provide that if the shipper so directs, rail substituted service will not be used.

The verified application shows that a copy thereof was served on California Trucking Association on or about March 26, 1973. The application was listed on the Commission's Daily Calendar of March 27, 1973. No objection to the granting of the application has been received.

In the circumstances, the Commission finds that the establishment of substituted rail service as specifically proposed in the application, on five days' notice, would not be adverse to the public interest. A public hearing is not necessary. The Commission concludes that the application should be granted.

IT IS ORDERED that:

1. Western Motor Tariff Bureau, Inc., is hereby authorized to publish, on behalf of Culy Transportation, Inc., doing business as Cal-Canadian Motor Express, and Southern Pacific Transportation Company, tariff provisions for substituted rail service as proposed in the application and to depart from the provisions of General Order No. 80-A to the extent necessary to publish said tariff provisions.
2. The carrier named in the above-numbered application is hereby authorized to depart from the long- and short-haul provisions of Section 460 of the Public Utilities Code in connection with rates that are currently maintained for the account of Culy Transportation, Inc., doing business as Cal-Canadian Motor Express, under outstanding long- and short-haul authorities.
3. Tariff publications authorized to be made as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than five days after the effective date hereof on not less than five days' notice to the Commission and to the public.

4. The authority herein granted shall expire unless exercised within 120 days after the effective date hereof.

This order shall become effective twenty days after the date hereof.

Dated at San Francisco, California, this 8<sup>th</sup> day of May, 1973.
