Case No. 9373
(Filed May 4, 1972)

ORDER GRANTING INTERVENTION

On April 24, 1973 Mobilfone, Inc., an RTU under this Commission's jurisdiction, filed a petition to intervene and become a party to Case No. 9373.

Mobilfone, Inc. alleges that if defendants are allowed to consummate their proposed changes in facilities and if defendants are allowed to continue their "pseudo common carrier" operations, Mobilfone will be injured in its two-way mobile and one-way paging systems in the Los Angeles metropolitan area. Mobilfone's allegations are similar to those of Industrial Communications Systems, Inc.

It appears that intervention should be granted in accordance with Rule 53 of this Commission's Rules of Practice and Procedure.

Therefore, IT IS ORDERED that Mobilfone, Inc. is an intervener in Case No. 9373 and a party to the proceeding equal to complainant Industrial Communications Systems, Inc.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 22nd day of MAY, 1973.
