

Decision No. 81494**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application
of DYNAMIC FREIGHT CORPORATION,
a California Corporation, for a
certificate of public convenience
and necessity authorizing the
transportation of General Commod-
ities between points within the
San Francisco Territory.

Application No. 53923
(Filed March 26, 1973)

O P I N I O N

Dynamic Freight Corporation requests a certificate of public convenience and necessity authorizing operations as a highway common carrier for the transportation of general commodities, with certain exceptions, between points and places within the San Francisco Territory. Applicant also requests corresponding authority to transport shipments moving in interstate and foreign commerce. Copies of the application were served upon existing carriers with which the proposed service might compete, as well as upon the California Trucking Association. An appropriate notice was published in the Federal Register. No protest has been received.

Applicant's president and sole stockholder has eleven years of experience as a corporate officer of two major certificated carriers. On July 5, 1972 applicant commenced the transportation of general commodities as a radial highway common carrier between South San Francisco and East Bay points with the use of a single high cube van. Shipments were picked up and delivered the same day. As the demand for its service increased applicant expanded operations to San Francisco and peninsula points, and acquired two additional vans, both of which are equipped with two-way radio communication. Additional vans are leased as needed.

It is alleged that because of an ever increasing demand for service by its customers applicant finds it necessary to become a certificated carrier so that it might properly and lawfully fulfill the transportation needs of its customers.

Applicant proposes a daily, on-call, 24 hours a day, seven days a week service on shipments moving in intrastate, interstate, and foreign commerce. The proposed rates would be comparable to those set forth in Minimum Rate Tariff 2. In addition to its present equipment applicant proposes to lease and, if necessary, purchase additional equipment. As of February 28, 1973 applicant indicated a net worth in the amount of \$18,898.

After consideration the Commission finds that:

1. Applicant is presently operating between points and places in the San Francisco Territory.

2. Applicant possesses the necessary equipment, experience, and financial ability to conduct the proposed service.

3. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate commerce as proposed in the application, and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by the order herein.

4. The Commission finds with reasonable certainty that the project involved in this proceeding will not have a significant effect on the environment.

The Commission concludes that the application should be granted as set forth in the ensuing order. The territorial description of the authority granted herein reflects the names of re-designated highways and roads and does not in any way exceed the geographical scope of the proposed operation as published in the Federal Register.

A public hearing is not necessary.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Dynamic Freight Corporation, a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points particularly set forth in Appendix A attached hereto and made a part hereof.

2. In providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations. Failure so to do may result in a cancellation of the operating authority granted by this decision.

(a) Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. Applicant is placed on notice that, if it accepts the certificate of public convenience and necessity herein granted, it will be required, among other things, to comply with and observe the safety rules of the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.

(b) Within one hundred twenty days after the effective date hereof, applicant shall establish the service herein authorized and file tariffs, in triplicate, in the Commission's office.

- (c) The tariff filings shall be made effective not earlier than thirty days after the effective date of this order on not less than thirty days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the service herein authorized.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.
- (e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.
- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects

not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 19th day of JUNE, 1973.

I dissent.

Commissioners

Commissioner J. P. Vukasin, Jr., being necessarily absent, did not participate in the disposition of this proceeding.

Dynamic Freight Corporation, by the certificate of public convenience and necessity granted in the decision noted in the margin, is authorized to conduct operations as a highway common carrier as defined in Section 213 of the Public Utilities Code for the transportation of general commodities between all points and places in the San Francisco Territory as described in Note A.

Except that pursuant to the authority herein granted, carrier shall not transport any shipments of:

1. Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4-B.
2. Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.
3. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers.
4. Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.

Issued by California Public Utilities Commission.

Decision No. 81494, Application No. 53923.

5. Commodities when transported in bulk in dump trucks or in hopper-type trucks.
6. Commodities when transported in motor vehicles equipped for mechanical mixing in transit.
7. Cement.
8. Logs.
9. Articles of extraordinary value.
10. Fresh fruits and vegetables.
11. Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper.
12. Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment.
13. Explosives and dangerous articles.

Note A

SAN FRANCISCO TERRITORY

San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division
