

Decision No. 81548

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of CAL-COAST CARRIERS, INC.,
a California corporation, pursuant to
Sections 1063 and 1064 of the Public
Utilities Code, for a certificate of
public convenience and necessity for the
transportation of general commodities
with certain exceptions, between points
and places in the State of California.

Application No. 53947
(Filed April 9, 1973;
amended May 21, 1973)

O P I N I O N

This is an application in which Cal-Coast Carriers, Inc., a California corporation, seeks authority to operate as a highway common carrier in the San Francisco Territory and requests a concurrent finding that public convenience and necessity also require the same service in interstate and foreign commerce.

It presently holds a cement carrier certificate, and radial highway common carrier, highway contract carrier, dump truck carrier, and household goods carrier permits issued by this Commission.

The verified application alleges that applicant has been operating as a permitted carrier for many years past and has grown with the growth of the Northern California area.

The application was served on 77 carriers and the California Trucking Association. The amendment is restrictive and does not expand the authority requested in the original application and therefore was not served on the parties served with the application. No protests have been received. The Commission makes the following findings and conclusions:

Findings

1. A public hearing is not necessary.
2. Applicant is a certificated cement carrier and also holds permits from this Commission to operate as a radial highway common carrier, highway contract carrier, dump truck carrier, and household goods carrier.

3. Applicant presently operates approximately 40 units of power equipment and 42 units of trailer equipment.

4. During the year 1972 applicant had operating revenues of \$773,450.40 and net earnings of \$18,663.08.

5. Applicant has the ability, including financial ability, to conduct the proposed operations.

6. Notice that this application was filed and that applicant will seek a certificate of registration from the Interstate Commerce Commission was published in the Federal Register on April 25, 1973.

7. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate commerce as proposed in the application and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by the order herein.

8. We find with reasonable certainty that the project involved in this proceeding will not have a significant effect on the environment.

Conclusions of Law

1. The application should be granted as set forth in the ensuing order.

2. The territorial description of the authority herein granted reflects the names of redesignated highways and roads, and does not in any way exceed the geographical scope of the proposed operations as published in the Federal Register.

3. The description of the commodities that applicant cannot transport by reason of the amendment to the application are more extensive than those set forth in the original application and does not in any way enlarge the proposed operations as published in the Federal Register.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Cal-Coast Carriers, Inc., a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points particularly set forth in Appendix A attached hereto and made a part hereof.

2. In providing service pursuant to the certificate herein granted, applicant shall comply with and observe the following service regulations. Failure so to do may result in a cancellation of the operating authority granted by this decision.

- (a) Within thirty days after the effective date hereof, applicant shall file a written acceptance of the certificate herein granted. Applicant is placed on notice that, if it accepts the certificate of public convenience and necessity herein granted, it will be required, among other things, to comply with and observe the safety rules of the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.

- (b) Within one hundred twenty days after the effective date hereof, applicant shall establish the service herein authorized and file tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than thirty days after the effective date of this order on not less than thirty days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the service herein authorized.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.
- (e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.

- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 3rd day of JULY, 1973.

I dissent:

William L. Sturgeon, Commissioner

Commissioners

Cal-Coast Carriers, Inc., by the certificate of public convenience and necessity granted in the decision noted in the margin, is authorized to conduct operations as a highway common carrier as defined in Section 213 of the Public Utilities Code for the transportation of general commodities between points and places in the San Francisco Territory as described in Note A.

Except that pursuant to the authority herein granted, carrier shall not transport any shipments of:

1. Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4-B.
2. Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.
3. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers.
4. Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.
5. Commodities when transported in bulk in dump trucks or in hopper-type trucks.

Issued by California Public Utilities Commission.

Decision No. 81548, Application No. 53947.

6. Commodities when transported in motor vehicles equipped for mechanical mixing in transit.
7. Cement.
8. Logs.
9. Articles of extraordinary value.
10. Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper.
11. Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment.
12. Explosives or dangerous articles.

Note A

SAN FRANCISCO TERRITORY

San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along
