Decision No.

82263

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation )  
into the rates, rules, regulations, )  
charges, allowances and practices of )  
all common carriers, highway carriers )  
and city carriers relating to the )  
transportation of sand, rock, gravel )  
and related items (commodities for )  
which rates are provided in Minimum )  
Rate Tariffs Nos. 7 and 17-A.)

Case No. 5437  
Petition for Modification  
No. 245  
(Filed March 30, 1973;  
amended April 23, 1973)

E. O. Blackman, for California Dump Truck  
Owners Association, petitioner.

Herbert W. Hughes, A. D. Poe, Attorney at  
Law, and Richard W. Smith, Attorney at  
Law, for California Trucking Association;  
and Harry G. Phelan, Jr., for California  
Asphalt Pavement Association; interested  
parties.

George L. Hunt and Raymond Toohey, for the  
Commission staff.

O P I N I O N

By this petition California Dump Truck Owners Association (CDTOA) seeks increases in dump truck zone rates published in Minimum Rate Tariff 17-A (MRT 17-A) for transportation of rock, sand, and gravel by for-hire dump truck carriers from San Diego County production areas to delivery zones in San Diego County and to certain delivery zones in Orange County. Petitioner alleges that the sought increases are necessary to compensate for increases in wages and allied costs which the carriers have experienced since the zone rates in San Diego

County were last adjusted in 1970, and for which no provision is included in the rates.<sup>1/</sup>

Public hearing was held before Examiner Norman Haley at Los Angeles on September 19, 1973 and the petition was submitted. Evidence was presented by petitioner's general manager and by an associate transportation engineer for the Commission staff.

According to exhibits and testimony of the general manager, wages and allied wage costs have increased pursuant to a new labor agreement negotiated between the teamsters and the San Diego County Rock Producers Association. The agreement (Exhibit No. 245-1) specifies that increases in wages and pension benefits shall be granted to drivers of dump trucks on August 16, 1972, and September 1, 1972, respectively. Thereafter the agreement provides that further increases in wages and pension benefits shall become effective August 16, 1973 and August 16, 1974. The petition seeks to have the zone rates from San Diego County production areas adjusted to reflect the labor and pension costs as of September 1, 1972. Cost figures introduced by the general manager include provision for the labor and pension costs effective August 16, 1973. He explained that since the petition was filed those labor increases also had gone into effect. The witness stated that the increases in wage costs up to and including August 16, 1973 are within federal guidelines.

The cost figures introduced by the CDTOA general manager include, in addition to the labor costs effective August 16, 1973,

1/ The San Diego County zone rates were originally established by Decision No. 77204 dated May 12, 1970 in Case No. 5437 (Petition No. 121). The current zone rates became effective September 1, 1970. They are based on the formula set forth in Appendix A of Decision No. 77522 dated July 21, 1970 in Case No. 5437 (Petition No. 199).

increases in federal payroll taxes and workmen's compensation insurance costs. He increased the indirect expenses by the wage (cost) offset method described in Decision No. 76353.<sup>2/</sup> He stated that costs of truck equipment, insurance, fuel and oil, tires and tubes, parts and maintenance, and communications also have increased since the last adjustment of the San Diego County zone rates. However, he did not include provision for any of those increased costs in the figures he presented. The general manager asserted that no efficiencies relative to equipment or operations have occurred to offset the effect of the cost increases that have taken place since Decision No. 77522. He presented data indicating the resulting changes which should be made in the San Diego County formula that underlies the zone rates if the rates are to be revised to reflect (1) the increased labor, fringe benefits, and payroll costs effective August 16, 1973, and (2) elimination of the

- 2/ Decision No. 76353, (1969) 70 CPUC 280-294, in Case No. 5432 and related cases (excluding Case No. 5437), describes three basic cost offset methods. The "wage (cost) offset" method utilizes the indirect expense ratio established in the original full-scale cost study in subsequent updatings or revisions of the study. The "wage offset" method utilizes about 50 percent of the indirect expenses that would result if the indirect expense ratio in the original study was used in subsequent updatings or revisions of the study. In the "direct wage offset" method indirect expenses are held constant and no allowance for changes in indirects is made in the cost offset adjustment in rates. The decision states that these and other cost offset procedures as may be deemed appropriate by parties assuming the burden of proof may be employed in recommending remedial cost offset minimum rate adjustments.

so-called Board of Equalization gross receipts tax due to repeal of the Motor Transportation License Tax Act, effective July 1, 1973.<sup>3/</sup>

The Commission staff engineer presented data to show the effect of the increased labor and pension costs as of September 1, 1972 and allied payroll costs as of July 1, 1973 (Exhibit No. 245-6). The engineer presented the updated costs on both the wage offset method and the direct wage offset method. He recommended the latter. The staff engineer also eliminated from gross revenue expenses the Board of Equalization gross receipts tax. The principal differences between the cost factors presented by the staff engineer and the CDTOA general manager are summarized below:

CDTOA General Manager

1. Labor and pension costs as of August 16, 1973 (\$7.120).
2. Health and welfare cost of \$.538.
3. Eight holidays allowed.
4. Terminal end time of 20 minutes.  
(Decision No. 77204)

Staff Engineer

- Labor and pension costs as of September 1, 1972 (\$6.570).
- Health and welfare cost of \$.501.
- Nine holidays allowed.
- Terminal end time of 18.5 minutes.  
(Decision No. 77522)

3/ In Exhibit No. 245-5 the witness set forth (1) the basic San Diego zone rate formula; (2) petitioner's proposed zone rate formula which includes a profit factor for that portion which involves the offset for the increased labor and allied costs; and (3) an alternate formula, not subscribed to by petitioner, which is without profit factor on the increased costs.

CDTOA General Manager

5. Indirect costs treated by wage(cost) offset method.

6. Profit factor added to increased costs.

7. - -

8. - -

Staff Engineer

Indirect costs treated by:  
(a) wage offset method;  
(b) direct wage offset method.

No profit factor added to increased costs.

Updated cost per ton mile developed for delivery to unzoned areas (information only).

Updated standby cost per revenue hour developed (information only).

The record is clear that since the zone rates in MRT 17-A from San Diego County production areas were last adjusted in 1970 by Decision No. 77522, wage costs, for which provision is included in those rates, have increased. Clearly, adjustments in the rates to compensate for the increased labor and related costs should be made in order that the rates may be continued at a just and reasonable level. The question thus resolves itself into the acceptability of the cost data presented by the CDTOA general manager and by the staff engineer.

In their presentations the general manager and the staff engineer relied upon the provisions of the labor agreement received as Exhibit No. 245-1. The staff engineer utilized the wage and pension rates as of September 1, 1972, whereas the general manager utilized those effective August 16, 1973. The petition seeks adjustments in the San Diego zone rates to reflect the wage and pension provisions as of September 1, 1972 (provisions in effect in March, 1973 when the petition was filed). Although there were further labor cost increases effective August 16, 1973 it would be inappropriate to adjust the minimum rates to reflect them without formal notice to the public. Under the circumstances the wage cost levels which will be utilized as the bases for the rate adjustments to be made herein will be those utilized by the staff engineer.

The costs which underlie the San Diego County zone rates are approximately five years old, except for the labor portion which was updated to September 1, 1970 by Decision No. 77522. That was the first offset of the full-scale San Diego County cost study introduced in the Petition No. 121 proceeding (Decision No. 77204). The wage (cost) offset method was utilized in Decision No. 77522. However, with the additional time that has elapsed, the original study no longer can be considered recent. The wage (cost) offset method should not be employed again. Under the circumstances, adoption of the wage offset formula developed by the staff engineer will be reasonable for use in adjusting the San Diego County zone rates.

Findings

1. The minimum zone rates in MRT 17-A for transportation of rock, sand, and gravel from San Diego County production areas reflect wage costs and allied payroll expenses effective September 1, 1970 (Decision No. 77522).
2. Since September 1, 1970 the wage costs and allied payroll expenses which underlie the zone rates involved have increased pursuant to agreement entered into by the San Diego County Rock Producers Association and the Teamsters Union.
3. In total the present zone rates in MRT 17-A from San Diego County production areas fail to cover the cost of performing transportation services.
4. The cost study presented by the Commission engineer (wage offset method) provides a reasonable basis for adjusting the zone rates in MRT 17-A from San Diego County production areas as set forth in the following formula:

$$\text{Rate per Ton} = \frac{(\text{OW Miles} \times \$0.0172) + (\text{RT Min.} \times \$0.00772) + \$0.1463}{0.9096}$$

plus  $(\text{RT Min.} \times \$0.00060) + \$0.0110$

5. The formula in Finding 4 gives effect to elimination of the gross receipts tax resulting from repeal of the Motor Transportation License Tax Law effective July 1, 1973.

6. The wage offset increase in the zone rates in MRT 17-A from San Diego County production areas results in an overall average increase of approximately four percent.

7. The increases in the minimum zone rates resulting from the adjustments in rates described in the preceding opinion and findings, and which will be established in the ensuing order, are justified.

8. The procedures of the Commission provided for reasonable opportunity for participation by all interested persons or their representatives. Copies of the petition and notice of hearing were sent to known carrier and shipper organizations and to the State of California Department of Public Works. No one opposed the granting of the petition.

Conclusions

1. Petition for Modification No. 245, as amended in Case No. 5437, should be granted to the extent set forth in the order herein and MRT 17-A should be amended accordingly.

2. To the extent not granted herein, Petition for Modification No. 245, as amended, should be denied.

O R D E R

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (Appendix C to Decision No. 80578, as amended) is hereby further amended by incorporating therein, to become effective January 18, 1974, the revised pages attached hereto and listed on Appendix A also attached hereto which pages and appendix are made a part hereof.

2. Common carriers subject to the Public Utilities Act, to the extent that they are subject to Decision No. 80578, as amended, are directed to establish in their tariffs the amendments necessary to conform with the further adjustments ordered herein.

3. Tariff publications required to be made by common carriers as a result of the order herein shall be made effective January 18, 1974, on not less than ten days' notice to the Commission and to the public if filed not later than January 18, 1974.

4. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects Decision No. 80578, as amended, shall remain in full force and effect.

6. Except as otherwise provided through this order, Petition No. 245 in Case No. 5437 is denied.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 18<sup>th</sup>  
day of DECEMBER, 1975.
