

Decision No. 82282

**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of  
CABS UNLIMITED, INC., dba Falcon  
Parcel Service, Yellow Cab Co. of  
Mountain View, Yellow Cab Co. of  
Los Altos, Yellow Cab Co. of Cuper-  
tino, Barron Cab Co., for a Certif-  
icate of Public Convenience and  
Necessity authorizing the transpor-  
tation of general commodities bet-  
ween points within San Francisco  
Territory.

Application No. 54298  
(Filed September 4, 1973)

O P I N I O N

Cabs Unlimited, Incorporated, doing business as Falcon Parcel Service, Yellow Cab Co. of Mountain View, Yellow Cab Co. of Los Altos, Yellow Cab Co. of Cupertino, and Barron Cab Co., requests a certificate of public convenience and necessity authorizing operations as a highway common carrier for the transportation of general commodities, with certain exceptions, between points within the San Francisco Territory. Applicant also proposes a corresponding service on shipments moving in interstate and foreign commerce. A certificate of service, attached to the application, indicates that copies thereof were served upon 52 carriers with which the proposed service might compete, as well as upon the California Trucking Association. An appropriate notice was published in the Federal Register on September 26, 1973. No protest has been received.

Applicant proposes a daily, same-day or overnight service, depending upon the time of day requests for service are received. The proposed rates would be comparable to those contained in Minimum Rate Tariff 2.

Applicant owns and operates 31 units of equipment, 14 of which are trucks and the others are taxicabs. Applicant's principal place of business is located in Mountain View and as of May 31, 1973, it indicated a net worth in the amount of \$40,682.

It is alleged that applicant has been operating in the proposed area as a permitted carrier; that its operations have continuously grown in response to the demands of its customers; and that because of this growth and development applicant wishes to dedicate its service for the public use within the proposed area.

After consideration the Commission finds that:

1. Applicant is presently providing service as a permitted carrier within the proposed certificated area.
2. Applicant's permitted operations within the proposed service area have materially grown and developed over the years because of an ever increasing demand for service by applicant's customers.
3. Applicant possesses the necessary equipment and financial ability to provide the proposed service.
4. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate commerce as proposed in the application and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by the order herein.
5. With reasonable certainty the project involved in this proceeding will not have a significant effect on the environment.

The Commission concludes that the application should be granted as set forth in the ensuing order. A public hearing is not necessary. The territorial description or routes of the authority granted reflects the names of redesignated highways and roads and does not in any way exceed the geographical scope of the proposed operation as published in the Federal Register.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration

for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Cabs Unlimited, Incorporated, a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A, attached hereto and made a part hereof.

2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure so to do may result in cancellation of the authority.

- (a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if it accepts the certificate it will be required, among other things, to comply with the safety rules of the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.
- (b) Within one hundred twenty days after the effective date of this order, applicant shall establish the authorized service and file tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than thirty days after the effective date of this order on not less than thirty days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the authorized service.

- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.
- (e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.
- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 3rd day of JANUARY, 1974

I dissent:
