Application No. 54535  
(Filed December 26, 1973)

O P I N I O N

Southern California Edison Company seeks authority to execute and deliver a Thirty-Fifth Supplemental Indenture and an Instrument of Further Assurance, and to issue, sell and deliver, at competitive bidding, not exceeding \$100,000,000 aggregate principal amount of its First and Refunding Mortgage Bonds, Series CC, Due 1999.

After paying and discharging obligations incurred for expenses incident to the issuance and sale of said bonds, applicant proposes to use the bond proceeds, other than accrued interest, to reimburse its treasury for uncapitalized construction expenditures. The accrued interest would be used for general corporate purposes. The utility reports uncapitalized construction expenditures of approximately \$590,405,000 as of October 31, 1973.

The company proposes to sell its new bonds at competitive bidding, the winning bid to determine the interest rate. The bonds would be subject to a five-year restricted redemption provision.

Applicant's reported capital ratios as of October 31, 1973, and as adjusted to give effect to the proposed bond issue, are summarized from the application as follows:

	<u>October 31, 1973</u>	<u>Pro forma</u>
Long-term debt	49.6%	51.0%
Preferred and preference stock	14.8	14.3
Common stock equity	<u>35.6</u>	<u>34.7</u>
Total	<u>100.0%</u>	<u>100.0%</u>

After consideration the Commission finds that:

1. The proposed bonds would be for proper purposes.
2. Applicant has need for external funds for the purposes set forth in the application.
3. The proposed restricted redemption provision is reasonable.
4. The proposed Thirty-Fifth Supplemental Indenture and Instrument of Further Assurance would not be adverse to the public interest.
5. The money, property or labor to be procured or paid for by the bonds herein authorized is reasonably required for the purposes specified herein, which purposes, except as otherwise authorized for accrued interest, are not, in whole or in part, reasonably chargeable to operating expenses or to income.

On the basis of the foregoing findings we conclude that the application should be granted. A public hearing is not necessary. The action taken herein is for the purpose of this proceeding only, and is not to be construed as indicative of amounts to be included in proceedings for the determination of just and reasonable rates.

O R D E R

IT IS ORDERED that:

Southern California Edison Company may issue, sell and deliver, at competitive bidding, not exceeding \$100,000,000 aggregate principal amount of its First and Refunding Mortgage Bonds, Series CC, Due 1999, at the price offered in a bid which shall provide the lowest annual cost of money to applicant calculated in the manner provided in the Statement of Terms and Conditions Relating to Bids, a copy of which is attached to the application as a part of Exhibit F.
