

Decision No. 82921

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
BROTHERS TRANSPORTATION, INC., a
corporation, for authority to acquire
a Certificate of Public Convenience
and Necessity, and LAW EXPRESS, INC.,
a corporation, to transfer pursuant
to Section 851, et seq., of the
California Public Utilities Code.

Application No. 54766
(Filed March 28, 1974)

O P I N I O N

Law Express, Inc. requests authority to sell and transfer, and Brothers Transportation, Inc. requests authority to purchase and acquire, a certificate of public convenience and necessity authorizing operations as a highway common carrier.

The certificate was granted by Decision No. 79093 dated August 31, 1971 in Application No. 52719 and authorizes the transportation of general commodities, with certain exceptions, between points within the Los Angeles Basin Territory. The agreed cash consideration is \$75,000.

Applicant purchaser is a newly formed Nevada corporation which was authorized to do business in California on March 20, 1974. Its principal place of business in California is in Los Angeles. Applicant purchaser owns 78 units of equipment and as of March 21, 1974 indicated a net worth in the amount of \$283,302.

After consideration the Commission finds that the proposed transfer would not be adverse to the public interest and concludes that it should be authorized. We further find with reasonable certainty that the project involved in this proceeding will not have a significant effect on the environment. A public hearing is not necessary. The order which follows will provide for, in the event the

transfer is completed, the revocation of the certificate presently held by Law Express, Inc. and the issuance of a certificate in appendix form to Brothers Transportation, Inc.

The authorization granted shall not be construed as a finding of the value of the rights authorized to be transferred.

Brothers Transportation, Inc. is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. On or before December 1, 1974, Law Express, Inc. may sell and transfer the operative rights referred to in the application to Brothers Transportation, Inc.

2. Within thirty days after the transfer the purchaser shall file with the Commission written acceptance of the certificate and a true copy of the bill of sale or other instrument of transfer.

3. Purchaser shall amend or reissue the tariffs on file with the Commission, naming rates and rules governing the common carrier operations transferred to show that it has adopted or established, as its own, the rates and rules. The tariff filings shall be made effective not earlier than five days after the effective date of this order on not less than five days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the transfer. The tariff filings made pursuant to

this order shall comply in all respects with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series. Failure to comply with the provisions of General Order No. 80-Series may result in a cancellation of the operating authority granted by this decision.

4. On or before the end of the third month after the transfer, the purchaser shall cause to be filed with the Commission, in such form as the Commission may prescribe, an annual report, or reports, related to the operations of the seller for the period commencing with the first day of the current year to and including the effective date of the transfer.

5. In the event the transfer authorized in paragraph 1 is completed, effective concurrently with the effective date of the tariff filings required by paragraph 3, a certificate of public convenience and necessity is granted to Brothers Transportation, Inc., a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A, attached hereto and made a part hereof.

6. The certificate of public convenience and necessity acquired by Law Express, Inc. by Decision No. 79093 is revoked effective concurrently with the effective date of the tariff filings required by paragraph 3.

7. Purchaser shall comply with the safety rules of the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.

8. Purchaser shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.

9. Purchaser shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If purchaser elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 29th
day of MAY, 1974.
