

After consideration the Commission finds that public convenience and necessity no longer require applicant's service as a public utility warehouseman in the city of Palo Alto and that public convenience and necessity require applicant's service as a public utility warehouseman in the city of Mountain View. A public hearing is not necessary.

We find with reasonable certainty that the project involved in this proceeding will not have a significant effect on the environment.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Thomas Transfer & Storage Company, Inc., a corporation, authorizing it to operate as a public utility warehouseman, as defined in Section 239(b) of the Public Utilities Code, for the operation of storage or warehouse floor space set forth in Appendix A, attached hereto and made a part hereof.
2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure so to do may result in a cancellation of the authority.

- (a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if it accepts the certificate it will be required, among other things, to file annual reports of its operations.
- (b) Within one hundred twenty days after the effective date of this order, applicant shall establish the authorized service and file tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than ten days after the effective date of this order on not less than ten days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the service authorized.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 61-Series.

3. Applicant shall comply with the regulations of the California Department of Public Health concerning hazardous or toxic commodities and shall include in its tariff a rule reading substantially as follows:

Hazardous or Toxic Commodities:

The warehouseman will not be required to accept for storage any commodity of a toxic nature which could contaminate other commodities in storage or be hazardous to the health of warehouse personnel. At warehouseman's option such hazardous or toxic commodities, when properly packaged and labeled to reduce contamination and health hazard to a minimum, may be accepted for storage in an area isolated from other commodities subject to contamination. Any additional services in the way of warehouse labor or excessive use of space arising from isolation of such commodities will be charged to the storage account.

4. The certificate of public convenience and necessity granted in paragraph 1 of this order shall supersede the prescriptive operative right determined by Commission order dated August 23, 1960 in Case No. 6869, which right is revoked effective concurrently with the effective date of the tariff filings required by paragraph 2(b).

5. Applicant shall bear the expense of moving the property of its customers from Palo Alto to Mountain View or to a warehouse of the customer's choice located within a radius of 25 miles of Palo Alto.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 18<sup>th</sup> day of JUNE, 1974.

Commissioners

Thomas Transfer & Storage Company, Inc., by the certificate of public convenience and necessity granted in the decision noted in the margin, is authorized to operate as a public utility warehouseman as defined in Section 239(b) of the Public Utilities Code for the operation of storage or warehouse floor space as follows:

<u>Location</u>	<u>Number of Square Feet of Floor Space</u>
Mountain View	4,500

(The floor space shown is exclusive of the expansion permissible under Section 1051 of the Public Utilities Code.)

(END OF APPENDIX A)

Issued by California Public Utilities Commission.

Decision No. 82990, Application No. 54829.
