

ORIGINAL

Decision No. 82993

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation into the rates, rules, regulations, charges, allowances and practices of all common carriers, highway carriers and city carriers relating to the transportation of sand, rock, gravel and related items (commodities for which rates are provided in Minimum Rate Tariff No. 20).

Case No. 5437
Petition for Modification
No. 264
(Filed January 30, 1974)
and
Petition for Modification
No. 268
(Filed March 13, 1974)

O P I N I O N

Minimum Rate Tariff 20 (MRT 20) contains zone rates for transportation of rock, sand, and gravel in four- and five-axle dump truck equipment from defined production areas to designated delivery zones in northern California. The minimum rates in MRT 20 initially became effective on October 1, 1973. MRT 20 was established pursuant to Decision No. 81799 dated August 28, 1973 in Case No. 5437 (OSH 226). The rates in MRT 20 superseded like rates formerly maintained in Minimum Rate Tariff 7. The rates in MRT 20 reflect costs of operation that became effective July 1, 1972 or before.

In Petition 264 California Dump Truck Owners Association (CDTOA) and in Petition 268 California Trucking Association (CTA) seek upward revision of the rates in MRT 20 to reflect current labor costs, payroll taxes, weight fees, and fuel costs incurred by dump truck carriers operating under the minimum rates in MRT 20. Petitioners allege that to the extent the rates in MRT 20 fail to reflect current operating costs of dump truck carriers, such rates are deficient and are below the level of reasonable and nondiscriminatory minimum rates.

Petitioners state that the minimum rates contained in MRT 20 are predicated on studies of operating costs and other factors introduced by the staff in the proceeding leading to Decision No. 81799 and request that the Commission staff revise such studies to reflect current operating costs, that increased rates be developed upon the same cost/rate relationships adopted in Decision No. 81799, and that the Commission adopt the results of the staff studies by the issuance of an ex parte order.

In compliance with the foregoing request, the Commission's Transportation Division staff has prepared and distributed to known interested parties a proposed exhibit containing a revision of the data in Exhibit 226-2 to reflect costs of operations developed in the following manner:

The exhibit contains costs relative to July 1, 1974. The formulae for costs at 100 operating ratio have been developed using the original format. The cost changes that have been incorporated within this exhibit are:

1. Labor levels and related fringe benefits effective July 1, 1974.
2. Updated levels of weight fees as a result of the revision of Vehicle Code Section 9400, effective December 1, 1973.
3. Increased fuel costs resulting in a basic cost per gallon increase of \$0.12 per gallon.

CDTOA and CTA have indicated that they concur in the results of the staff's proposed exhibit and ask that it be made part of the record herein. Said document is made part of the record in these proceedings as Exhibit 264-1. No objection to the staff exhibit or request for public hearing has been received.

Decision No. 81799, supra, indicates that the zone rates in MRT 20 are predicated upon the cost data in Exhibit 226-2 expanded to reflect a profit factor of 8 percent (cost/rate relationship of 92 percent). The rates and charges established by the order

which follows will be predicated upon the revised cost data set forth in Exhibit 264-1 expanded for a profit factor of 8 percent.

Findings

1. MRT 20 was initially established as Appendix A to Decision No. 81799 (dated August 28, 1973 in Case No. 5437, OSH 226).

2. The minimum zone rates in MRT 20 are constructed from the cost data developed by the Commission staff and set forth in Exhibit 226-2. That exhibit reflects labor and other operating costs as of July 1, 1972 or before.

3. Since July 1, 1972, dump truck carriers operating under the minimum zone rates contained in MRT 20 have incurred increases in their expenses for labor (including fringe benefits), payroll taxes, weight fees established by law, and fuel.

4. The Commission staff in Exhibit 264-1 has revised the basic cost data set forth in its Exhibit 226-2 to reflect wages, payroll costs, weight fees, and fuel costs on a current basis. The wage costs reflected therein are the increased wages and fringe benefits scheduled to become effective July 1, 1974 in wage agreements between dump truck carriers and their employees. Fuel costs are based on 40.5 cents per gallon (inclusive of taxes). Indirect expenses in Exhibit 264-1 are developed on the Wage (Cost) Offset method described in Decision No. 76353 (1969) 70 CPUC 277.

5. To the extent that the minimum rates in MRT 20 do not reflect the current operating costs of dump truck carriers performing services under MRT 20, as measured in Exhibit 264-1, such rates are deficient and below the level of just, reasonable, and non-discriminatory minimum rates.

6. Increases in the minimum rates in MRT 20 necessary to restore said rates to a reasonable level are justified, and MRT 20 should be revised to reflect increased rates based on the cost data in Exhibit 264-1. In developing such rates the cost/rate relationship of 92 percent found reasonable and adopted in Decision No. 81799 should continue to be maintained.

7. Concurrently with the establishment of the specific rates found reasonable herein, the interim fuel surcharge of three percent effective February 11, 1974 (established pursuant to Decision No. 82453 dated February 5, 1974 in Case No. 5432, Petition 780, et al.) should be cancelled.

Conclusions

1. A public hearing in these proceedings is not necessary.
2. MRT 20 should be amended as provided in the order which follows.

O R D E R

IT IS ORDERED that:

1. Minimum Rate Tariff 20 (Appendix A to Decision No. 81799, as amended) is further amended by incorporating therein, to become effective July 1, 1974, the supplement and revised pages contained in Appendix A attached hereto and by this reference made a part hereof.
2. Common carriers subject to the Public Utilities Act, to the extent that they also are subject to Decision No. 81799, as amended, are directed to establish in their tariffs the increases necessary to conform with the further adjustments ordered by this decision.
3. Tariff publications required to be made by common carriers as a result of this order shall be filed not earlier than the effective date of this order and may be made effective not earlier than July 1, 1974 on not less than one day's notice to the Commission and to the public, and shall be made effective not later than July 1, 1974.
4. Common carriers, in establishing and maintaining the rates authorized by this order, are authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under

outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects, Decision No. 81799, as amended, shall remain in full force and effect.

6. To the extent not granted herein, Petitions 264 and 268 in Case No. 5437 are denied.

The effective date of this order shall be June 28, 1974.

Dated at San Francisco, California, this 18th day of JUNE, 1974.

SECTION 1--RULES (CONTINUED)	ITEM
<p style="text-align: center;">APPLICATION OF TARIFF--CARRIERS</p> <p>Rates provided in this tariff are minimum rates, established pursuant to the Highway Carriers' Act. They apply for transportation of property by dump truck carriers, as defined in said Highway Carriers' Act, in bulk in dump truck equipment.</p> <p>The rates and rules contained in this tariff shall apply to transportation by underlying carriers (independent-contractor subhauler) when such transportation is performed for other carriers as provided in Item 460.</p>	40
<p style="text-align: center;">APPLICATION OF TARIFF--COMMODITIES</p> <p>Rates in this tariff apply for the transportation of the following commodities:</p> <p style="padding-left: 40px;">Rock, natural, crushed, chips, waste or dust (Subject to Notes 1 and 2),</p> <p style="padding-left: 40px;">Sand,</p> <p style="padding-left: 40px;">Gravel.</p> <p>NOTE 1.--The term "rock", as used herein, includes stone.</p> <p>NOTE 2.--The term "rock", as used herein, includes any rock or rocks that passes through a 6-inch screen as used in the industry.</p>	60
<p style="text-align: center;">APPLICATION OF TARIFF--GENERAL</p> <p>Rates in this tariff do not apply to the transportation of:</p> <p>(a) Property of the United States or property transported under an agreement whereby the United States contracted for the carrier's service.</p> <p>(b) Disaster Supplies, i.e., those commodities which are allocated to provide relief during a state of extreme emergency or state of disaster; and those commodities which are transported for a civil defense or disaster organization established and functioning in accordance with the California Disaster Act to ultimate point of storage or use prior to or during a state of disaster or state of extreme emergency.</p> <p style="text-align: center;">***</p>	800

ITEM	SECTION 1--RULES (CONTINUED)
100	<p style="text-align: center;">APPLICATION OF TARIFF--RATES</p> <p>Except as otherwise provided, the rates in this tariff are zone rates and include bridge tolls. The rates apply from all points of origin within the designated production areas to all points of destination within the designated delivery zones.</p> <p>If any portion of a shipment is physically delivered into or beyond more than one delivery zone, the minimum rate for the entire shipment shall be that rate from point of origin to the highest rated point where physical delivery is made. (See Exception)</p> <p>EXCEPTION.--When any portion of a shipment is delivered into more than one zone, and when no portion of such shipment is physically delivered beyond the boundaries of streets which are the boundaries between the zones involved, the minimum rate for the entire shipment shall be the lower or the lowest of the applicable rates between point of origin and the zones into which delivery is made.</p>
120	<p style="text-align: center;">APPLICATION OF TARIFF--TERRITORIES</p> <p>Rates in this tariff apply for transportation from all points within the production areas to all points within the delivery zones described in Northern California Production Area and Delivery Zone Directory 2. They apply also, to the extent specified elsewhere herein, for transportation from all points within said production areas to points outside of said delivery zones.</p>
§140	<p style="text-align: center;">APPLICATION OF TARIFF--TYPES OF EQUIPMENT</p> <p>(a) Rates in the tariff apply to transportation of rock, sand and gravel in four- and five-axle dump truck equipment (truck tractor or dump truck with dump-type trailing equipment).</p> <p>(b) When the shipper, debtor or overlying carrier requests transportation service to be performed by a two- or three-axle truck with transfer-type pull trailer, the rate shall be 15 cents per ton more than the otherwise applicable rate.</p> <p>(c) Rates in this tariff do not apply to transportation of rock, sand and gravel in two- or three-axle dump trucks without trailing equipment. When such equipment is utilized rates set forth in Minimum Rate Tariff A7-A shall apply.</p>
§160	<p style="text-align: center;">APPLICATION OF OTHER MINIMUM RATE TARIFFS</p> <p>Except as otherwise provide, the rates in this tariff supersede, and apply to the exclusion of, rates applicable to the same transportation under other minimum rate tariffs of the Commission.</p> <p>§For rates for the transportation of commodities in dump truck equipment, other than as provided in this tariff, see Minimum Rate Tariff 1-B, 2, A7-A or 19 as the case may be.</p>

SECTION 1--RULES (CONTINUED)

ITEM

ALTERNATIVE APPLICATION OF COMBINATIONS
WITH COMMON CARRIER RATES

When lower aggregate charges result, tonnage rates provided in this tariff may be used in combination with the published rates of common carriers by land filed with the Commission for the transportation of shipments of the same kind of property between the same points, subject to the following conditions:

(a) When the point of origin is located beyond a railhead and the point of destination is located at a railhead, add to the common carrier rate applying from any (1) team track or (2) private railhead which is owned or leased by the party who contracts with the carrier for the performance of the transportation service, to point of destination the tonnage rate provided in this tariff, applicable to the weight of entire shipment, from point of origin to any such team track or private railhead from which the common carrier rate used applies. (See Notes 1, 2 and 3)

(b) When the point of origin is located at a railhead and the point of destination is located beyond a railhead, add to the common carrier rate applying from point of origin to any (1) team track or (2) private railhead which is owned or leased by the party who contracts with the carrier for the performance of the transportation service, the rate in cents per ton shown in Note 1 of Item 320 for each mile or fraction thereof from any such team track or private railhead to which the common carrier rate used applies to point of destination. (See Notes 1, 2 and 3)

(c) When both the point of origin and the point of destination are located beyond railhead, add to the common carrier rate applying between any railheads (A) the tonnage rate provided in this tariff, applicable to the weight of the entire shipment, from point of origin to any (1) team track or (2) private railhead which is owned or leased by the party who contracts with the carrier for the performance of the transportation service, from which the common carrier rate used applies, and (B) the rate in cents per ton shown in Note 1 of Item 320 for each mile or fraction thereof, from any (1) team track or (2) private railhead which is owned or leased by the party who contracts with the carrier for the performance of the transportation service, to which the common carrier rate used applies to point of destination. (See Notes 1, 2 and 3)

NOTE 1.--If loading and unloading are not included in the rate of a common carrier which is applied or used to construct a rate for highway transportation, the following rates in cents per ton shall be added to the common carrier rate (See Notes 2 and 3):

Service Provided	Column	
	A	B
Loading	14	12
Unloading	18	9

Column A.--Applies when shipment is transported by truck and transfer combination equipment.

Column B.--Applies when shipment is transported in equipment other than described under Column A.

NOTE 2.--When a rail carload rate is subject to varying minimum weights, dependent upon the size of the car ordered or used, the lowest minimum weight obtainable under such minimum weight provisions may be used in applying the basis provided in this item, except that when no specific minimum weight is shown for a carload rate, it shall be not less than 30,000 pounds.

NOTE 3.--In applying the provisions of this item, a rate no lower than the common carrier rate and a weight no lower than the actual weight or published minimum weight (whichever is the higher) applicable in connection with the common carrier rate shall be used.

SECTION 1--RULES (CONTINUED)	ITEM
<p style="text-align: center;">ISSUANCE OF SHIPPING DOCUMENT (Concluded)</p> <p>(e) A Weight Ticket may be substituted for the Combined Shipping Order and Freight Bill, provided that all the necessary information is supplied by the Weight Ticket or annotated thereon.</p> <p>(f) The documents issued shall be prepared in two or more copies. A copy of each shall be furnished to the shipper, and a copy of each shipping document, freight bill, accessorial service document, weighmaster's certificate, written instructions, written agreement, written request or any other written document which supports the rates and charges assessed and which the carrier is required to issue, receive or obtain by this tariff for any transportation or accessorial service shall be retained and preserved by the carrier, at a location within the State of California, subject to the Commission's inspection, for a period of not less than three years from the date of issue.</p> <p>(g) Abbreviations or code numbers, letters or other similar designations may be used to record information required to be shown on the document by paragraph (a) provided that all abbreviations or codes are clearly defined on the document or on a separate explanatory sheet. If the definitions are on a separate explanatory sheet, a copy thereof shall be furnished to all parties receiving copies of document which said abbreviations and codes are used, and a copy shall be retained with the carrier's copy of the documents relating thereto in accordance with the provisions of paragraph (e). The term carrier as used herein includes both overlying and underlying carriers.</p> <p>(h) The form of shipping document in Section 7 will be suitable and proper. Other forms may be utilized provided that the requirements of this item are completely fulfilled.</p>	400
<p style="text-align: center;">METHOD OF DETERMINING WEIGHT OF SHIPMENT</p> <p>Actual weight of the shipment shall be used when furnished by the shipper or when obtained by the carrier at the shipper's direction and expense. In the event actual weights are not available an estimated weight of 2,800 pounds per cubic yard shall be used (See Exception).</p> <p>EXCEPTION.--When rail rates are used under the provisions of Items 200 and 220 of this tariff, actual, estimated or agreed weights shall be used to compute charges in accordance with the provisions of the governing rail tariff.</p>	420
<p style="text-align: center;">MINIMUM CHARGE</p> <p>The minimum charge per shipment shall be the charge for 22 tons at the applicable rate. (See Note).</p> <p>NOTE.--The minimum weight must be transported in one unit of dump truck equipment at one time.</p>	440

ITEM	SECTION 1--RULES (CONTINUED)
ø460	<p style="text-align: center;">PAYMENTS TO UNDERLYING CARRIERS</p> <p>Charges paid by any overlying carrier to an underlying carrier and collected by the latter carrier from the former for the service of said underlying carrier shall be not less than 95 percent of the charges applicable under the minimum rates prescribed in this tariff, less the gross revenue tax applicable and required to be paid by the overlying carrier (See Notes 1 and 2). The underlying carrier may extend credit to the overlying carrier for a period not to exceed twenty days following the last day of the calendar month in which the transportation was performed, and payment to the underlying carrier must be made within that time. Freight bills for transportation and accessorial charges shall be presented by the underlying carriers to overlying carriers within three days after the last calendar day of the month in which the transportation was performed.</p> <p>ANOTE 1.--As used in this item the term gross revenue tax means the fees payable to the California Public Utilities Commission under the Transportation Rate Fund Act.</p> <p>NOTE 2.--Nothing herein contained shall prevent an overlying carrier, in paying such charges, from deducting therefrom such liquidated amounts as may be due from the underlying carrier to the overlying carrier, providing such deductions have been authorized in writing by the underlying carrier. Any overlying carrier electing to employ this procedure shall itemize such amounts and maintain for the Commission's inspection all documents involved in the transaction.</p>
