Decision No. 83276

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of)
E.S.P. DELIVERY SERVICE, INC., for)
authority to depart from the minimum)
rates, rules and regulations of)
Minimum Rate Tariff No. 2, pursuant)
to the provisions of Section 3666 of)
the Public Utilities Code.

Application No. 54915
(Filed May 30, 1974)

OPINION AND ORDER

E.S.P. Delivery Service, Inc. operates as a highway contract carrier for the transportation of general commodities, with limited exceptions, between all points in California. The application states that 89.12 percent of its shipments weigh 100 pounds or less and most of this traffic weighs less than 50 pounds. Applicant utilizes terminals at Oakland, Los Angeles, Fresno, and San Diego. Applicant seeks authority exempting it from the otherwise governing provisions of Minimum Rate Tariff 2 (MRT 2) when transporting packages weighing 100 pounds or less from points within a radius of 50 miles of Oakland, and Los Angeles, and within a radius of 75 miles of Fresno to various specified delivery points.

By Decision No. 82324 dated January 8, 1974 in Application No. 53915, applicant was authorized to depart from the provisions of MRT 2 with respect to parcels weighing 100 pounds or less in an area embraced by Novato, Sacramento, and San Jose. The authority sought herein is more extensive and in some instances would cover shipments for which exemption has previously been granted in Decision No. 82324.

A schedule of rates and rules which applicant proposes to assess under the sought exemption is attached to the application (Exhibit A). Applicant requests that the sought rates be authorized for a temporary period ending December 31, 1974 to enable it to develop operative costs predicated upon such rates which can be offered to the Commission as justification for the charges that will be requested by applicant in the application to be filed prior to December 31, 1974. By letter dated June 24, 1974, applicant amended the application to delete the Zone 5 rates set forth in Exhibit A attached to the application. The letter is hereby received in evidence as Exhibit 1. Since the amendment is restrictive in nature, it is not necessary to serve it upon the parties served with the application. In further support of the sought relief applicant has presented its statement of income and expenses for a four-month period ended April 30, 1974 to demonstrate that its existing operations are profitable. Applicant has also submitted a list of equipment to show its capability of performing the proposed service.

The relief sought herein is consistent with the Commission's position as expressed in J. S. Aaronson (1961) 58 CPUC 533:

"The ultimate issue herein is whether the petitioner should be exempted from the requirements of Minimum Rate Tariff 2. A granting of such exemption presupposes that the established minimum rates are not suitable, reasonable, or proper for the operations by petitioner. . . . We have found that minimum rates in Minimum Rate Tariff 2 are not the minimum reasonable rates for parcel delivery service by carriers wholly engaged in conducting parcel delivery operations and, hence, have exempted carriers operating solely as parcel delivery carriers from said minimum rates. . . . Exemptions were first granted in 1939 by Decision No. 31606. Those carriers granted exemptions were common carriers maintaining tariffs naming the rates they assessed.

Since that time, exemptions have been granted to highway permit carriers who do not maintain schedules of rates. Ordinarily the operating permits of those carriers have been restricted to the transportation of shipments not exceeding 100 pounds... It appears that such restriction is not sufficient to restrict the operation to a parcel service at parcel rates.

"... We are of the opinion that henceforth, whenever any highway carrier requests authority to depart from the provisions of the established minimum rates, the order granting such relief should prescribe the minimum rates to be assessed by that carrier in lieu thereof. In the case of a parcel delivery carrier, the establishment or approval of minimum parcel rates to be assessed by it will remove the possibility of any abuse of the exemption granted." (Emphasis supplied.)

The minimum rate exemption sought by applicant fully conforms with the criteria set forth in the Aaronson decision. Moreover, if the sought relief is granted, applicant would then enjoy an equality of competitive opportunity with other parcel delivery carriers serving the same general area.

The certificate of service discloses that a copy of the application was served upon several competing parcel delivery carriers previously granted the relief sought herein and the California Trucking Association. The application was listed on the Commission's Daily Calendar of June 3, 1974. No protests or requests for public hearing have been received.

The Commission finds that:

1. The rates, rules, and charges named in MRT 2 are not appropriate, reasonable, or otherwise proper for the parcel delivery service performed by E.S.P. Delivery Service, Inc.

2. The sought exemption from the otherwise governing provisions of MRT 2 for the transportation of shipments weighing 100 pounds or less at rates and charges not less than those specified in Appendix A hereof has been shown to be justified.

3. The minimum rate exemption authority as proposed by applicant fully conforms with the criteria prescribed in Aaronson, *supra*.

4. The sought exemption in some instances would cover shipments for which exemption has previously been granted by Decision No. 82324 dated January 8, 1974 in Application No. 53915.

Conclusions

1. Application No. 54915 should be granted.

2. In those instances where shipments fall within the exemption granted both by this decision and Decision No. 82324 the provisions set forth herein should apply.

IT IS ORDERED that:

1. E.S.P. Delivery Service, Inc. is authorized to transport shipments weighing 100 pounds or less at rates less than and different from the otherwise governing minimum rates to the extent and in the manner set forth in Appendix A attached hereto and by this reference made a part hereof.

2. In the event a shipment tendered to E.S.P. Delivery Service, Inc. is covered by the exemption granted herein and the exemption granted by Decision No. 82324, the provisions of this decision shall apply.

3. The authority granted herein shall expire on December 31, 1974 unless sooner modified or canceled by order of the Commission.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 16th
day of AUGUST, 1974.

Commissioner D. W. Holmes, being necessarily absent, did not participate in the disposition of this proceeding.

APPENDIX A
Page 1 of 20

Minimum Parcel Delivery Rates
E.S.P. Delivery Service, Inc.

Application

1. The rates set forth herein are applicable only to the transportation of packages weighing 100 pounds or less between points set forth herein.
2. The rate for the transportation of a package between points within the same zone, as described on the Zone Schedule attached hereto, shall be the rate provided in the attached Rate Schedule for that zone.
3. The rate for the transportation of a package between points in two zones shall be the rate applicable to the highest of the two zones, as prescribed in the attached Rate Schedule.

Rules

1. The rates herein apply only when the released value or declared value is 50 cents per pound or less, and the maximum value per package or article is \$100 or less.
2. Shipments transported under the rates herein are subject to all the provisions of Minimum Rate Tariff 2, except as provided herein.
3. The rates herein do not apply to same-day service.
4. An additional charge of \$1.00 will be assessed for each C.O.D. shipment received for collection.
5. If the carrier is unable to deliver any shipment because of incorrect address, shipper will be assessed a charge of 65 cents for either the subsequent delivery or carrier's attempt to deliver to correct address.
6. All charges must be paid by the shipper.
