O P I N I O N

Bernard Reznick, doing business as Universal Mail Delivery Service, is authorized to operate as a highway contract carrier and as a radial highway common carrier for the transportation of property within California. Petitioner seeks authority to be exempt from the otherwise governing provisions of Minimum Rate Tariffs 1-B, 2, 9-B, and 19 when performing specialized courier transportation service for:

Checks, drafts, money orders, securities, transit items, sales audit items, business records, audit media, tabulation cards, data processing materials, legal documents, and printed or reproduced documents or data, in vehicles of licensed weight of 4,000 pounds or less, and excluding transportation subject to weekly, monthly, or yearly vehicle unit rates.

Petitioner states that the sought exemption is identical to that granted in Decision No. 65794 (61 CPUC 260) wherein the Commission found: "In view of these and other dissimilarities between petitioners' services and those which are subject to the minimum rate provisions in issue herein, we find that said minimum rate provisions are not appropriate minimum rates, rules, and regulations for the armored car and courier services which petitioners provide." A like finding relative to petitioner's sought minimum rate exemption is appropriate.

This matter was listed on the Commission's Daily Calendar for September 26, 1974. No protests or requests for public hearing have been received. In the circumstances, the Commission finds that petitioner is engaged in a courier transportation service for which competing highway carriers have heretofore been exempted from the otherwise governing minimum rates, and petitioner's request for similar relief has been shown to be justified.

The Commission concludes that Petitions Nos. 822, 229, and 318 in Cases Nos. 5432, 5439, and 5441, respectively, should be granted. A public hearing is not necessary.
