Decision No. 83973

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of
J. C. EXPRESS CO., INC. for a
certificate of public convenience
and necessity authorizing transpor-
tation of general commodities as a
highway common carrier between
points within the San Francisco
Territory and areas adjacent
thereto.

Application No. 55249
(Filed October 15, 1974)

O P I N I O N

J. C. Express Co., Inc., a California corporation, requests authority to operate as a highway common carrier for the transportation of general commodities, with certain exceptions, between points in the San Francisco Territory. Applicant also requests corresponding interstate authority. Copies of the application were served upon 30 existing carriers with which the proposed service might compete, and an appropriate notice was published in the Federal Register on November 6, 1974. No protest has been received.

Applicant is presently operating as a permitted carrier. Its main place of business is located in Cupertino. Applicant operates seven units of equipment, including five vans and two pickups, and as of June 30, 1974 indicated a net worth in the amount of \$54,199.

Applicant proposes a daily service Monday through Friday with the time-in-transit being both same day and overnight, depending upon the time of day requests for service are received. The proposed rates would be comparable to those set forth in Minimum Rate Tariff 2.

It is alleged that applicant's owners and principal operating employees have been engaged in the for-hire transportation by motor carrier in the San Francisco Territory for many years before organizing the applicant corporation; that the service of J. C. Express Co., Inc. was commenced in 1970 with two trucks serving a limited number of customers; that most of the original customers are still utilizing applicant's service; their businesses and the volumes of their shipments have grown substantially; that as a result of the increased traffic and in the number of shippers being served, additional units of equipment have been acquired; that the frequency of service and operations within the proposed area have experienced a consistent growth; that because of the change in the character of its service, applicant is concerned as to whether its permitted authorities continue to allow the frequency of operations it is presently experiencing; and that the requested authority will permit applicant to perpetuate its service and thereby meet the requirements of its customers.

After consideration the Commission finds that:

1. Applicant is presently providing service as a permitted carrier within the proposed certificated area.

2. Applicant's permitted operations within the proposed service area have materially grown and developed over the years because of an ever-increasing demand for service by applicant's customers.

3. Applicant possesses the necessary equipment and financial ability to provide the proposed service.

4. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate commerce as proposed in the application, and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by the order herein.

5. With reasonable certainty the project involved in this proceeding will not have a significant effect on the environment.

The Commission concludes that the application should be granted as set forth in the ensuing order. The territorial descriptions or routes of the authority granted reflect the names of redesignated highways and roads and do not in any way exceed the geographical scope of the proposed operation as published in the Federal Register. A public hearing is not necessary.

Applicant is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to J. C. Express Co., Inc., a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A, attached hereto and made a part hereof.

2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure so to do may result in cancellation of the authority.

- (a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if it accepts the certificate it will be required, among other things, to comply with the safety rules administered by the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.
- (b) Within one hundred twenty days after the effective date of this order, applicant shall establish the authorized service and file tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than thirty days after the effective date of this order on not less than thirty days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the authorized service.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.
- (e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.

- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects not to transport collect on delivery shipments, it shall make the appropriate tariff filings as required by the General Order.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 7th day of JANUARY, 1975.

I dissent

Commissioners

J. C. Express Co., Inc., by the certificate of public convenience and necessity granted in the decision noted in the margin, is authorized to conduct operations as a highway common carrier as defined in Section 213 of the Public Utilities Code for the transportation of general commodities between all points and places in the San Francisco Territory as described in Note A, and all points within ten miles of any point therein.

Except that pursuant to the authority herein granted carrier shall not transport any shipments of:

1. Used household goods and personal effects not packed in salesmen's hand sample cases, suitcases, overnight or boston bags, brief cases, hat boxes, valises, traveling bags, trunks, lift vans, barrels, boxes, cartons, crates, cases, baskets, pails, kits, tubs, drums, bags (jute, cotton, burlap or gunny) or bundles (completely wrapped in jute, cotton, burlap, gunny, fibreboard, or straw matting).
2. Automobiles, trucks and buses.
3. Livestock.
4. Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.
5. Commodities when transported in bulk in dump trucks or in hopper-type trucks.

Issued by California Public Utilities Commission.

Decision No. 83973, Application No. 55249.

6. Commodities when transported in motor vehicles equipped for mechanical mixing in transit.
7. Portland or similar cements, in bulk or packages, when loaded substantially to capacity of motor vehicle.
8. Logs.
9. Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment.
10. Fresh fruits and vegetables.

NOTE A

SAN FRANCISCO TERRITORY

San Francisco Territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of State Highway 32; southerly along an imaginary line one mile west of and paralleling State Highway 32 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly

Issued by California Public Utilities Commission.

Decision No. 83973, Application No. 55249.

along Capitol Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Blvd.) via Mission San Jose and Niles to Hayward; northerly along Foothill Blvd. and MacArthur Blvd. to Seminary Avenue; easterly along Seminary Avenue to Mountain Blvd.; northerly along Mountain Blvd. to Warren Blvd. (State Highway 13); northerly along Warren Blvd. to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the Campus Boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

(END OF APPENDIX A)

Issued by California Public Utilities Commission.

Decision No. 82973, Application No. 55249.
