

ORIGINALDecision No. 84099

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of)
DONALD TOBENER, doing business as)
GOLDEN GATE TRUCKING, for removal)
of an operating restriction in a)
Highway Common Carrier Certificate)
and in a co-extensive Certificate)
of Registration for interstate and)
foreign operations.)

Application No. 55323
(Filed November 18, 1974)

O P I N I O N

Donald Tobener, doing business as Golden Gate Trucking and presently providing service as a highway common carrier for the transportation of general commodities, with certain exceptions, between points within the San Francisco-East Bay Cartage Zone, requests a modification of his certificated authority by removing therefrom an operating restriction which requires that the point of origin or point of destination of shipments shall be within the City and County of San Francisco. Applicant conducts a corresponding interstate service subject to the same operating restriction, which he also desires to have removed. A copy of the application was served upon the California Trucking Association and an appropriate notice was published in the Federal Register on December 11, 1974. No protest has been received.

Applicant's main place of business is in San Francisco. He owns and operates 20 units of equipment.

It is alleged that a major portion of applicant's service is performed for American President Lines; that for many years American President Lines has conducted its docking operations from the Port of San Francisco; that recently American President Lines decided to move its docking operations to the Port of Oakland; and that removal of the operating restriction is necessary if applicant is to continue his service for this account.

After consideration the Commission finds that:

1. Applicant is presently providing service within the proposed area as a certificated carrier.

2. Applicant's major account is moving its docking operations from the Port of San Francisco to the Port of Oakland and unless the operating restriction is removed applicant will be unable to provide service.

3. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate commerce as proposed in the application and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by the order herein.

4. With reasonable certainty the project involved in this proceeding will not have a significant effect on the environment.

The Commission concludes that the application should be granted as set forth in the ensuing order. A public hearing is not necessary.

The order which follows will provide for the revocation of applicant's present certificate and the issuance of a new certificate, in appendix form, restating the authority as herein granted.

Donald Tobener is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an element of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely permissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect limited as to the number of rights which may be given.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Donald Tobener authorizing him to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A of this decision.
2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure so to do may result in cancellation of the authority.
 - (a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if he accepts the certificate he will be required, among other things, to comply with the safety rules administered by the California Highway Patrol and the insurance requirements of the Commission's General Order No. 100-Series.

- (b) Within sixty days after the effective date of this order, applicant shall establish the authorized service and amend the tariffs, in triplicate, in the Commission's office.
- (c) The tariff filings shall be made effective not earlier than ten days after the effective date of this order on not less than ten days' notice to the Commission and the public, and the effective date of the tariff filings shall be concurrent with the establishment of the authorized service.
- (d) The tariff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Commission's General Order No. 80-Series.
- (e) Applicant shall maintain his accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commission and shall file with the Commission, on or before March 31 of each year, an annual report of his operations in such form, content, and number of copies as the Commission, from time to time, shall prescribe.
- (f) Applicant shall comply with the requirements of the Commission's General Order No. 84-Series for the transportation of collect on delivery shipments. If applicant elects not to transport collect on delivery shipments, he shall make the appropriate tariff filings as required by the General Order.

3. The certificate of public convenience and necessity granted in paragraph 1 of this order shall supersede the certificate of public convenience and necessity granted by Decision No. 80720, as amended by Decision No. 80789, which certificate is revoked effective concurrently with the effective date of the tariff filings required by paragraph 2(b).

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 19th
day of FEBRUARY, 1975.

Commissioners

Donald Tobener, by the certificate of public convenience and necessity granted in the decision noted in the margin, is authorized to conduct operations as a highway common carrier as defined in Section 213 of the Public Utilities Code, for the transportation of general commodities within the San Francisco-East Bay Cartage Zone as described in Note A.

Except that pursuant to the authority herein granted carrier shall not transport any shipments of:

1. Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in salesmen's hand sample cases, suitcases, overnight or boston bags, brief cases, hat boxes, valises, traveling bags, trunks, lift vans, barrels, boxes, cartons, crates, cases, baskets, pails, kits, tubs, drums, bags (jute, cotton, burlap or gunny) or bundles (completely wrapped in jute, cotton, burlap, gunny, fibreboard, or straw matting).
2. Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.
3. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers.
4. Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.
5. Commodities when transported in bulk in dump trucks or in hopper-type trucks.
