Decision No. 84205

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of SOUTHERN CALIFORNIA EDISON COMPANY for a Certificate that Present and Future Public Convenience and Necessity require or will require the construction and operation by Applicant of two combined cycle electric generating units, to be known as Units No. 3 and 4 at an existing site known as COOLWATER GENERATING STATION, together with other appurtenances to be used in connection with said units.

Application No. 53329
(Filed June 9, 1972;
amended January 11, 1973)

In the matter of the application of SOUTHERN CALIFORNIA EDISON COMPANY for a certificate that the present and future public convenience and necessity require or will require construction and operation by applicant of the Nos. 1 and 2 220 kv transmission lines from Coolwater Generating Station to Kramer Substation.

Application No. 53602
(Filed September 25, 1972)

INTERIM ORDER

Pursuant to Rule 17.1 (g)(2)(A) of the Rules of Practice and Procedure of the Public Utilities Commission, the Commission hereby appoints Harold T. Sipe, Chief Environmental Engineer, to prepare Final Environmental Impact Reports in these applications.

In all other respects Examiner Archibald E. Main shall continue as Presiding Officer in these applications.

The effective date of this order is the date hereof.

Dated at San Francisco, California,
this 18th day of MARCH, 1975.
