Decision No. 84293

BEFORE THE PUBLIC UTHITIES COMMISSION OF THE STATE OF CALIFORNIA
In the Matter of the Application of CITY. FREIGEI IINES (formerly City Transfer, Inc.), a California comporation, for a Certificate of Fublic Convenience and Necessity to operate as a highway common carrier for the transportation of property in intrastate and fnterstate and forefgn commerce.-

RusseII \& Schureman, by R. Y. Schureman and Carl Fritze, Attorneys at Law, for applicant.
Gerald L. Mockenhaupt, for Victorville Barstow Truck Ines; and Jerald Simon, for Big Pine Trucking Company; protestants.

$$
\underline{Q} \underline{\underline{I}} \mathbb{N} \underline{Q} \underline{N}
$$

This is an application of City Freight Ifnes (City) for an extension of its certificate of public convenience and necessity, both intrastate and interstate, for general commodities between Los Angeles and Highway 14 and 58 points, namely, Saugus, Newhall, Palmdale, Lancaster, Boron, and Edwards Air Force Base, as more particularly set forth in Exhibit $B$ attached to the application. Notice of this request was published in the Federal Register on : October 31, 1974.

City is presently operating as a highway common carrier under certificates of public convenience and necessity authorized in Decision No. 77698 dated September 1, 1970 in Application No. 52066 and Decision No. 82485 dated February 20, 1974 in Application No. 50549 and holds a certificate of public convenfence and necessity as a petroleum irregular route carrier. City also has
a public utility warehouse certificate, and has highway contract carrier and radial highway common carrier permits issued by this Comission. City also holds extensive, and substantially concurrent, interstate authority issued by the Interstate Commerce Commission (ICC), among which is a certificate of public convenience and necessity for the transportation of general commodities (with certain exceptions) between Los Angeles International Aifport (IAX) and Hollywood-Burbank Airport (H-B) at Burbank on the one hand, and Saugus, Newhall, Palmdale, Lancaster, Edwards, Boron, and Edwards Air Force Base, Califormia, on the other hand, which authority is restricted to shipments having a prior or subsequent movement by air. City also has interstate authority from the Los Angeles Harbor Area to the above points, restricted to shipments having a prior or subsequent rovement by water.

On September 3, 1974, pursuant to ow Dectaions Nos. 82485 and 83083, City filed its proposed in-Ileu certificate consolidating and updating its existing authorlties. City is secking additional authority in this application to round out and complete its extensive intrastate and interstate authorities.

Victorvilie-Barstow Iruck Iines (VBII), a certificated carrier from Los Angeles to the requested area and beyond has protested this appifation. Big Pine Irucking Company (Big Pine), filed its oral protest on the initial date of hearing. Pubile hearing was held before Examiner Phillip E. Blecher on February 13, and 14, 1975, and this matter was submitted on the latter date.

## Applicant's Evidence

The applicant's president, Charies W. Owen, began the service now known as City Freight Lines in 1947 as a permitted carrier with one pickup truck in the Long Beach area, and through internal growth, acquisitions, and intrastate and interstate grants of authority has grown to a major trucking carrier with corporate assets of $\$ 4,975,794$, net worth of $\$ 2,783,653$, and 687 pleces of equipment, all as of November $30,1974$.

In August 1974, City had about 840 interstate shipments to and from the requested area (see Exhibits 4, 6, and 7) and about 114 intrastate shipments to the area (see Exhibit 5) under its permits. About 95 percent of the shipments originating at IAX are delivered on the same day. The harbor traffic is taken to the applicant's LAX terminal and is delivered the next day. The deliveries are made via two vehicles whose movements for one typical period (August, 1974) are recorded respectively on Exhibits 6 and 7. Truck one (shown on Exhibit 6) carried over twice as many shipments as Truck two (shown on Exhibit 7), which is used as an overflow carrier, and which carries about 50 to 60 percent of its capacity. City represented that its time in transit both to and from the requested area would be both same day and ovemight, depending upon the time of pickup; that it would run regularly scheduled routes to and from the area; that it could use doubles and break en route, thus saving 150 to 200 miles daily, using less fuel and decreasing emissions accordingly; that it carries a great deal of fretght forwarder traffic to and from the sought area, and would attempt to obtain more such traffic, if certificated; that It has received many requests from its shippers tendering interstate traffic to the area in question to handle intrastate traffic, as well as from the shipping public generally; and that it would be able to provide more responsive and efficient service to the shipping public, if the requested authority, rounding and filling its authority in the subject area, is granted.

Applicant produced a total of 14 supporting shippers ${ }^{I /}$ divided into two categories: four freight forwarder customers and 10 general shipping customers, all of whom have had, or presently have traffic to or from the requested area. Their commodities are varied, and thus may be classified as general. Between them they testified as follows:- $/$

1. All use City for some of their present traffic to various areas, including the subject area.
2. City's service has been excellent; plckups have been dependable and on a daily basis.
3. Cify has equipment and personnel assigned to each freight forwarder's terminal, assists their operations, and assigns additional personnel and equipment as needed.
4. Dellveries are generally overnight, but same day service is provided on request.
5. City's claim service is excellent, and its remittance of advances is excellent and much prompter than VBIL.
6. Most shippers would prefer to limit the number of regular carriers being used, because of space, time, and bilifing problems and limitations.
7. VBTL has provided less than adequate service to some shippers with regard to late and missed pickups, delayed deliveries, and lack of solicitation, and has brought little business to the freight forwarders.
[^0]```
A. }5524
8. Some shippers would eliminate combination rates now being charged when they ship into the requested area, if the authority sought by City was granted.
9. City delivers on the billing of the freight forwarders, thus expediting the shipments, and reducing the time, cost, and amount of paper work involved for these shippers.
10. The freight forwarders would generally give their business to the carrier with the cheaper rate.
11. All shippers would use City to the subject area if authority was granted.
12. The shippers want to eliminate interifining whenever possible.

\section*{protestant's Evidence}

VBII was the only active protestant, as Big Pine produced no evidence. Cross-examination of City's president adduced that City's present IAX run to the subject area was never profitable as to Truck two, and often not profitable as to Truck one, and City needs the authority it is seeking here to fill out its needs and the needs of its customers. If the authority sought by City is granted, City would be a direct competitor of VBII as far as Edwards Afr Force Base. (VBTL's authority extends generally to the VictorvilleBarstow Area, which is beyond the scope of the appilcation.) VBIL has 103 pleces of equipment and 49 exployees (down from 57 in July, 1972). Its gross revenue in 1974 was \(\$ 1,560,218\), up \(\$ 13,000\) over 1973 and continuing the upward trend that has existed since 1970. Its gross revenue for 1974 from the requested area was \(\$ 370,697\), up over \(\$ 17,000\) from 1973, on a weight loss in excess of 2,755,000 pounds (compared to 1973), and a reduction in the number of bills (and thus shipments) from 1973 to 1974 of 1,946.3/ Its

3/ AII figures used are obtained from Exhibit 13.
A. 55244 IB/e1 *
operating ratio improved by 1.8 percent from 1973 to 1974 (see Exhibit 14). VBII's general manager testified that the decrease in tonnage from 1973 to 1974 was due to the frequent rate fncreases since 1969 (see Exhibit 12), and that the increase in carriers in its certificated area caused the company to suffer and lose business (though no factual evidence or data in support of this testimony was offered). He also testifled that there was a tremendous amount of competition in its area because of the number of certified carriers, syppos \(/ /\), and proprietary operations, and that some carriers have pulled out of the area by eliminating daily service and running only two or three times a week. He explained the company's improved position in 1974 as compared to 1973 in the face of fncreased competition, fncreased rates, loss of tonnage, and loss of volume, as perhaps due to good management. VBIL also disputed some of the supporting shippers' testimony as to its volume of traffic with them and the complaints in regard to VBIL's adequacy of service. VBIL also fadicated that about one-third of its revenue was generated by intrastate traffic.
Discussion
The applicant must show that public convenience and necessity requires the issuance of the requested certification (Presto Delivery Service, Inc., Decision No. 83726 dated November 19, 1974). In determining whether that burden has been wet, the Comission must consider the questions of experience, financial ability, facilities, and equipment; whether the proposed sexvice is adequately responsive to the needs of the shippers; whether the public requires the proposed service; and whether the granting of the application would adversely affect the protestants or the public interest. (Application of Encinal Terminals (1963) 61 CPOC 721.)

4/ Spelling uncertain.

In the instant proceeding, the only matters substantially In dispute are whether the shipping public needs the proposed service, (and correlatively, whether such service is adequately responsive to the shippers' needs), and whether the protestants and public interest would be adversely affected.

It appears that the 14 witnesses supporting City are fairly representative of the shipping public. That they may prefer the services of one carrier over all others and that the favored carrier may rely on such preference to extend its service has previously been held in Tesi Drayage Company (I970) 71 CPuC. 24. Since all the shippers stated, in one form or another, that the extension of City's certificate would be beneficial to them in one or more of the ways previously outitned and is preferred, the proposed service is thus responsive to the needs of the shipping public and the first issue must be resolved in favor of the applicant.

There can be no serfous dispute as to whether the public interest is adversely affected. The reduction in mileage, fuel consumption, and emissions that would occur under the proposed service, as well as the more frequent, wore efficient, more convenient, and more economical service would certainly be beneficial to the public interest. Lastly, is there an adverse effect upon VBII by granting the authority, and thus increasing its cometition? Appilcant is already competing with VBIL both as a perwitted carrier and as a Iimited interstate carrier-5/. The granting of the authority being sought would increase the scope of competition able to be offered by City. But increasing the scope of competition is not equivalent to advexsely affecting the protestant. During the admittedly economically difficult year of 1974, the protestant, in

\footnotetext{
5/ Restricted to shipments having prior or subsequent movements by alx or water.
}
the face of increased competition, higher rates, and loss of volume and tonnage, still managed to increase its revenues and operating ratio, thus increasing its profits. This was attributed, at least partially, to good management. If this is true, we fail to see any reason that a potential increase in the degree of competition from an existing competitor would or should have an adverse effect upon VBTL, particularly where its assertion of adverse effects from the increased competition in the past is not supported by the evidence, which actually refites this position. VBII appears to have improved its performance in the light of the allegedly adverse conditions. We must thus conclude that the granting of the authority will not have any substantial adverse effect upon VBIL.

\section*{Findings}
I. Applicant has the ability, experience, facilities, and financial resources to perform the proposed service.
2. Applicant presently operates in the proposed area as a permitted highway contract carrier and radial highway common carrier, and has inmited interstate authority in the area. (see footnote 5, supra)
3. Applicant proposes overnight service to the requested area, with same day delivery on request.
4. The requested certification of appifcant will enable it to render a broader, more convenfent, and more efficient service to its customers, both in intrastate and interstate commerce.
5. The certification of applicant in the proposed area will not substantially adversely affect protestant's ability to continue its existing services.
6. Any potential diversion of traffic from protestant is speculative and unproven, and thus would not appear to have an adverse effect upon protestant's operations.
7. The shippers supporting the application are fairly representative of the shipping public.
8. Those shippers prefer applicant's services to those of protestant and desire the granting of the application to enable applicant to render a direct, broader, more efficient, more convenient, and more economical service.
9. Notice of the application appeared in the Federal Register on October 31, 1974.
10. We find with reasonable certainty that the project involved in this proceeding will not have a significant effect on the environment.
11. Public convenience and necessity require that applicant be authorized to engage in operations in intrastate comerce as proposed in the application and also require that applicant be authorized to engage in operations in interstate and foreign commerce within limits which do not exceed the scope of the intrastate operations authorized by this decision. Conciusion

The Commission concludes that the application should be granted as set forth in the ensuing order. Applicant's certificates will be restated in the form of a new certificate so as to consolidate its present autherity with the authority herein granted. the territorial description or routes of the authority granted reflect the names of redesignated highways and roads and do not in any way exceed the geographical scope of the proposed operation as published in the Federal Register.

City Freight Lines, a California corporation, is placed on notice that operative rights, as such, do not constitute a class of property which may be capitalized or used as an clewent of value in rate fixing for any amount of money in excess of that originally paid to the State as the consideration for the grant of such rights. Aside from their purely perwissive aspect, such rights extend to the holder a full or partial monopoly of a class of business. This monopoly feature may be modified or canceled at any time by the State, which is not in any respect Iimited as to the number of rights which may be given.

ORDER
II IS ORDERED that:
I. A certificate of public convenience and necessity is granted to City Freight Ifnes, a corporation, authorizing it to operate as a highway common carrier, as defined in Section 213 of the Public Utilities Code, between the points set forth in Appendix A of this decision.
2. In providing service pursuant to the authority granted by this order, applicant shall comply with the following service regulations. Failure so to do may result in cancellation of the authority.
(a) Within thirty days after the effective date of this order, applicant shall file a written acceptance of the certificate granted. Applicant is placed on notice that if it accepts the certificate it will be required, among other things, to comply with the safety rules administered by the California Higinway Patrol and the insurance requirements of the Comission's General Order No. 100-Series.
(b) Within one hundred twenty days after the effective date of this order, applícant shall establish the authorized service and amend or reissue tariffs, in triplicate, in the Comaission's office.
(c) The tariff filings shall be made effective not earliex than thirty days after the effective date of this order on not less than thirty days" notice to the Comission and the prolic, and the effective date of the tariff filings shall be concurrent with the establishment of the authorized service.
(d) The tarlff filings made pursuant to this order shall comply with the regulations governing the construction and filing of tariffs set forth in the Comission's General Order NO. 80-Sexies.
(e) Applicant shall maintain its accounting records on a calendar year basis in conformance with the applicable Uniform System of Accounts or Chart of Accounts as prescribed or adopted by this Commssion and shall file with the comoission, on or before March 31 of each year, an annual report of its operations in such form, content, and number of copiles as the Comission, from time to time, shall prescribe.
(घ) Applicant shall comply with the requirements of the Comission's General Order No. 84-Serles for the transportation of collect on delivery shipwents. If applicant elects not to transport coliect on delivery shipments, it shali make the appropriate tariff iflings as required by the General order.
3. The certificate of public convenience and necessity granted in paragraph 1 of this order shall supersede the highway common carrier certificates of public convenience and necessity granted by Decisions Nos. 77698 and 82485 , which certificates are revoked effective concurrently with the effective date of the tariff filings required by paragraph 2 (b).

The effective date of this order shall be twenty days after the date hereof.

Dated at
San Francisca , California, this \(\qquad\) day of \(\qquad\) , 1975.

Commissioner robert batinovict
Present but not participating-

City Freight Ines, by the certificate of pubilc conven1ence and necessity granted in the decision noted in the margin, is authorized to conduct operations as a highway comon carrier as defined in Section 213 of the Pubilc Utilities code, for the following transportation:

\section*{I. GENERAL COMMODITIES}
1. Between all points and places within the San Francisco Terifory as described in Note A.
2. Between all points and places on and within five miles lateraliy of the following bighways:
a. State Kighway 1 between its jurction with \(\mathbb{U}\). S. Highway 101 at E1 R10 and Point Mugu, 1nciusive.
b. State Highway 218 between its gunction with U. S. Highway 101 near Ventura and Santa Susana, inclusive.
c. State IHghway 126 between Ventura and its function with Interstate Elghway 5 at Castaic Junction, Inclusive.
d. State Highway 33 between Ventura and Wheeler Hot Springs, inciusive.
e. State Highway 246 between Santa Ynez and Surf, inclusive, including the off-route point of Point Argueilo Naval Missile Facility.
f. State Highway \(I\) between Iompoc and Pismo Beach, 1nclusive, including the off-route point of Vandenberg Air Force Base.
8. Jnnumbered county road between 1ts gunctior with U. S. Higinway 101 near Los Alamos and Santa Maria, inclusive, via sisquoc and Garey.
n. Unnumbered county highway between San Margarita and Atascadero, inclusive.
1. J. S. Highway 101 between Atascadero and San Miguel, inclusive, inclucing the off-route point of Camp Roberts Military Reservation.

Issued by California Public Utilities Comission. Decteion No. \(\qquad\) , Appiscation No. 55244.
1. State Highway I between Salinas and Castrovilie, inclusive.
k. State Highway I between Castrovilie and Aptos, inciusive.
1. ए. S. Highway 101 between Gilroy and Madrone, IncIusave.
3. Between all points on the following named highways:
a. J. S. Eighway 101 between Thousand Oaks and San Jose, inclusive.
b. State Highway 23 between Fillmore and Moorparix, inclusive.
c. State HIghway 150 between Santa Paula and Campenteria and between Santa Barbara and Santa Inez, Inclusive.
a. State HIghway I between Las Cruces and Lompoc, inelusive.
e. State Highway I between San Luis Obispo and San Simeon, inclusive.
f. State Highway 46 between Pas Robles and Cambria, inelusive.
8. State Highway 68 between Salinas and Monterey, inciufive including the off-route point of Spreckels.
h. State Highway I between Camel and Santa Cruz, Inclsave, including the off -route point of Fort Ord Malitary Reservation.
4. a. The authority set forth in subparagraph 1 through 3 is subject to commodity exceptions Nos. 2, 3, 6, 7, and 23 through 26 .
b. Through routes and rates may be established between any and ail points described therein.
5. Between points in the Los Angeles Territory as described in Note \(B\), on the one hand, and all points described in subparagraphs 2,2 , and 3 above, on the other hand (Subject to commodity exceptions Nos. 1 through 7, 10, and 12 through 26).

Issued by California Public Ut121ties Commission.
Decision No. \(\qquad\) 84293 , ApplIcation No. 55244.

CITY FREIGET IINES (a California comporation)

6. Between all points and places within the Los Angeles Basin Territory, as described in Note C, over and along the most appropriate streets and highways within said temitoxy.
7. Between Santa Barbara, the Los Angejes Basin Temptory and the San Diego Territory, as described in Note \(D\), over and along U. S. Highway No. 101, between Santa Barbara and Its junction with Interstate Highway 5 in Los Angeies and over and along Interstate "ifghway 5 between its junction with U. S. Eighway 101 and the San Diego Territory, serving ail intermediate points and all off-route points located on or within three miles lateraliy of said highway, includIng the points of Point Mugu, Port Huenere, Oxnara, Santa Paula, Fillmore, Ofa1, Goleta, Saticoy, Somis, Woodiand Fillis and Canoga Park.
8. The authority set forth in subparagraphs 6 and 7 is subject to comodity exceptions Nos. I througe 7, 9 and il.
9. Between Los Angeles and Eorom, serving all intermediate points and ali points within ten miles iateraily of State Highway 14 between 1ts Junction with Interstate Highway 5 near San Fernando and Rosamond, unnumbered county road between Its Junction with State Iifghway 14 at Rosamond and its Junction with State EIghway 58, near joroth Edwards, and State Eighway 58 between its function with unnumbered county road near North Edwards and Boron (Subject to cormodity exceptions Nos. I through 6 and 10).

\section*{COMMODITY EXCEPTIONS:}

Except that where specificaliy noted and in pursuance of the authority herein granted, carrier shail not transport any shipments of:
i. Tsec household goods and personal effects not packed in salesmen's hand sample cases, suitcases, overnight or boston bass, brier cases, hat boxes, valises, traveing bags, trunks, lift vans, barrels, boxes, cartons, crates, cases, baskets, pails, kits, tubs, drums, bags (jute, cotton, burlap or sunny) or bundes (completeiy wrapped in jute, cotton, buriap, gunay, iforeboard, or straw matting).

Issued by Califomia Public Utilities Commission.
Decision No. \(\qquad\) , Application No. 55244.
2. Automobiles, trucks and buses, viz.: new and used, finished or unininished passenger auto mobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automoblile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.
3. Ilvestock, viz.: barmows, boars, bulis, butcher hogs, calves, cattle, cows, dayry cattie, ewes, feeder pigs, gilts, goats, helfers, hogs, keds, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, staes, swine or wethers.
4. ILquids, compressed gases, commodities in semiplastic form and commodities in suspension in ilquids in bulk, in tank trucks, tank trailers, tank semftrailers or a combination of such bighway vebicles.
5. Commodities when transported in buIk in dump trucks or in hopper-type trucks.
6. Comodities when transported in motor vehicies equipped for mechanical mixing in transit.
7. Logs.
8. Articles of extraordinary value.
9. 2najler coaches and campers, Inciuding integral parts and contents when the contents are within the trailer coach or camper.
10. Comodities requiring the use of special refrigeration or temperature control in specialis designed and constructed refrigerator equipment.
11. Comodities requiring protection from heat by the use of lue (either water or solidified carbom dioxide) or by mechanical. refrigeration.
12. Commodities which by reason of their size, buik or weight require special equipmemt.
13. Articies of extraorcinary value as set forth in Ruie 3 of Westem Classification No. 77,

Issued by Cailformia Public Utilities Comission.
Decision No.
84293 , Application No. 55244.
J. P. Hackier, Mariff Publishins Officer, on the issued date thereor.
24. Petroleum procucts in buik in tank trucks or tank trailers.
15. Fresh fruits and vegetables.
26. Fertilızer.
II. SPECIPIED COMMODITIES
1. Cattie and poultry feed, seeds, fertilizer (inciud1 1gg unrefined sulphur), insecticides, lumber, cement, and building materials in quantities of not iess than 4,000 pounds per shipment from one consignor to one consignee.

From Los Angeles, San Pedro, Wilmington, Vernon, South Gate, Huntington Park, Long Beach, Inglewood, Glendale, Pasacena, San Francisco, South San Francisco, Francisco, Oakland, San Leandro, Berkeley, Emexyvilie, San Jose, Santa Clara and Permanonte to Arroyo Grande and points withir a three-miae radus thereof.
2. a. AGRICUITURAL INPLEMENIS, HRND, OR PARIS NAMED, as Insted under tinat headins in Items Nos. 2710 throuzh 3191.
b. AGRICULIURAI INPLEMENTS, OMEER THAN HAND, as insted under that heading in Items Nos. 3205 through 4051.
c. AGRICULTURAI IMPIENENTS PARTS, OTEER TTIAN HRND, as insted under that heading in Items Nos. 4065 through 4661.
d. BASKENS OR HAMPERS, as ilsted uncer that beading in Items Nos. 20320 tincough 10670.
e. BOXES OR CRATES, INCLUDING FIBREBOARD, PAPER OR PULPBOARD, BOTHES OR CANS, as ilsted under that heading in Items Nos. 13845 through 14646.
f. FISE, FRESH OR FROZEN, as 11sted under that ieading in Items Nos. 33505 through 38575.

Issued by Callfomia Public Utilities Comaission.
Decision No.
84293 , Application No. 55244.
8. FOODSTUFFS, BEVERAGES OR BEVERAGE PREPARATIONS, NOT NANED IN OTHER MORE SPECIFIC GROUPS, as insted under that headine in Items Nos. 39410 through 41150.
h. INSECIICIDES OR FUNGICIDES, AGRICULIURAL, as ifsted under that heading in Items Nos. 52960 through 53110.
1. The tern Items Nos. In subparagraphs a through \(h\) refers to Western Classinication No. 76, George in. Dumas, Agent, on the issue date thereof.
J. FERTILIZERS, as insted under that beading in Items NOS. 535, and 550 of Pacific Southcoast Freight Bureau Exception Sieet No. I-S, CaI. P.U.C. No. 193, J. P. Jaynes, Agent, on tine Issued date thereor and Item No. 540 A of Supplement No. 34 thereto.
k. MISCELLANEOUS COMMODITIES, VIZ.: Flowers, fresh, cut.
(1) Between ali points ane places in the San Iufs Ob1spo-Santa Naria Area as described in Noted \(E\).
(2) Between 211 points and places in the \(\operatorname{san}\) Iuis Ob1spo-Santa Maria Area, on the one hand, anci, Los Angeles, on the other hand.
(3) Eetween all points and places in the San Inis Obispo-Santa Maria Area, Oxnard and points within a five-mile radius of oxmara, on the one hand, and points within a fivemile racius of saifras, and points on or WIthin Eive miles Iateraliy of the foliowing named highways, on the other hand:
(a) State Eighway 2 between Aptos and San Francisco, inclusive.
(b) U.S. Highway 201 between Salinas and the San Francisco Territory as described herein, 1nciusive.
