

ORIGINALDecision No. 84561

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investiga-)	
tion for the purpose of consid-)	Case No. 7858
ering and determining revisions)	(Petition for Modification
in or reissues of Exception)	No. 196)
Ratings Tariff No. 1.)	(Filed May 23, 1975)

OPINION AND ORDER

Exception Ratings Tariff 1 (ERT 1) contains various interim exception ratings, which apply in lieu of those named in National Motor Freight Classification NMF 100 B and govern various minimum rate tariffs making specific reference thereto.¹

By the above petition, Chevron Chemical Company; Elanco Products Company, a division of Eli Lilly and Company; and Stauffer Chemical Company seek to extend the expiration date governing the truckload exception rating of Class 35.4, minimum weight 45,000 pounds, in ERT 1 on "tree or weed killing compounds, NOI" from June 30, 1975 to June 30, 1976. Petitioners also request that common carriers be authorized and directed to establish in their respective tariffs all such modifications as may be prescribed by the Commission's order in this proceeding, including relief from the long- and short-haul provisions of Section 460 of the Public Utilities Code.

Petitioners state it had been intended that, through consultation with highway carriers, a permanent rating could be established by this time. Unfortunately, petitioners are not yet in a position to request establishment of a permanent rating together

¹Minimum Rate Tariffs 1-B, 2, 9-B and 19.

with provisions governing the use of the rating. Petitioners further state that there is a continued need for the exception rating.

Copies of the petition were mailed to California Manufacturers Association and California Trucking Association on or about May 22, 1975. The petition was listed on the Commission's Daily Calendar of May 29, 1975. No objection to the granting of the petition has been received.

In the circumstances, the Commission finds that petitioners' proposal is reasonable and justified. A public hearing is not necessary. The Commission concludes that the petition should be granted.

IT IS ORDERED that:

1. Exception Ratings Tariff 1 (Appendix A to Decision No. 66195, as amended) is further amended by incorporating therein, to become effective July 1, 1975, Fifteenth Revised Page 20 attached hereto and by this reference made a part hereof.

2. Common carriers subject to the Public Utilities Act, to the extent that they are subject to Decision No. 66195, as amended, are hereby authorized to establish in their tariffs the amendments necessary to conform with the further adjustments ordered herein.

3. Tariff publications authorized to be made by common carriers as a result of this order may be made effective not earlier than July 1, 1975, and may be made effective on not less than one day's notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff page incorporated in this order.

4. Common carriers, in establishing and maintaining the rating authorized hereinabove, are hereby authorized to depart from the provisions of Section 460 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now

maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the rating published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects, Decision No. 66195, as amended, shall remain in full force and effect.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 17th day of June, 1975.
