Application No. 55531
(Filed March 3, 1975)
(Amended March 25, 1975)

OPINION AND ORDER

Commercial Carriers, Inc., a corporation, operates as a highway common carrier in connection with the transportation of motor vehicles between various points in the State of California and as a highway permit carrier of general commodities. By this application, as amended, it seeks authority as a highway permit carrier, to depart from the minimum rates in Minimum Rate Tariff 12 by assessing rates per vehicle in lieu of rates per vehicle which vary according to the number of vehicles in the shipment. Applicant proposes to apply such rates to the transportation of passenger and freight motor vehicles for General Motors Corporation from Los Angeles, Los Nietos, Santa Fe Springs, Long Beach, Compton, Wilmington, Los Angeles Harbor and the City of Commerce to various points in California.

Applicant alleges that the proposed rates are basically a duplication of the rates it currently has on file for interstate operations. Applicant avers that the proposed rates would offer an incentive to tender smaller shipments over shorter distances and would definitely benefit the shipper.

Revenue and expense data submitted by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable during the ensuing year.

The certificate of service shows that a copy of the application and amendment were respectively mailed to California Trucking Association on February 28 and March 24, 1975. The application and amendment were respectively listed on the Commission's Daily Calendar of March 4 and 27, 1975. No objection to the granting of the application, as amended, has been received.

In the circumstances, the Commission finds that the proposed deviation is reasonable. A public hearing is not necessary. The Commission concludes that the application, as amended, should be granted.

IT IS ORDERED that:

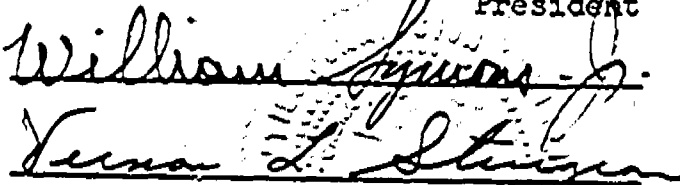

1. Commercial Carriers, Inc., a corporation, is hereby authorized to depart from the provisions of Minimum Rate Tariff 12 as more particularly set forth in Appendix A attached hereto and by this reference made a part hereof.
2. The total freight charges assessed under the authority granted in ordering paragraph 1 hereof shall not be less than those which would have been assessed had the rates and accessorial charges stated in Minimum Rate Tariff 12 been applied.
3. Commercial Carriers, Inc. shall retain and preserve copies of its freight bills, subject to the Commission's inspection, for a period of not less than three years from the dates of issuance thereof and each such copy of its freight bills shall have attached a statement of the charges which would have been assessed if the minimum rates had been applied and full information necessary for accurate determination of the charges under Minimum Rate Tariff 12.
4. The authority herein granted shall expire one year after the effective date of this order unless sooner cancelled, modified, or extended by order of the Commission.

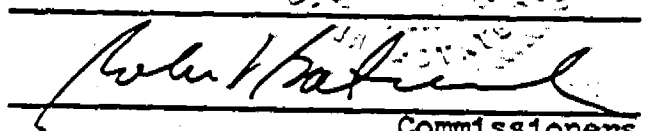

A. 55531 - ANV

Dated at San Francisco, California, this 18 day of
