Application No. 55512
(Filed February 25, 1975)

OPINION AND ORDER

Insured Transporters, Inc., a corporation, seeks authority, as a highway permit carrier, to depart from the minimum rates in Minimum Rate Tariff 12 (MRT 12) by assessing rates per vehicle in lieu of rates per vehicle which vary according to the number of vehicles in the shipment.¹ Applicant also requests authority to deviate from any provision of MRT 12 which may be inconsistent with the uniform application of such single factor rates. Applicant proposes to apply these rates to the transportation of motor vehicles for General Motors Corporation and its subsidiaries from Benicia and Richmond to all points in California.

Applicant states that it has been transporting motor vehicles for General Motors Corporation and certain of its subsidiaries for several years and its proposal involves only a change in the form of its billing.

¹ The proposed rates are set forth in detail in Exhibit A attached to the application.

Revenue and expense data submitted by applicant indicate that the transportation involved has been profitable and reasonably may be expected to be profitable during the ensuing year.

Copy of the application was mailed to California Trucking Association. The application was listed on the Commission's Daily Calendar of February 26, 1975. No objection to the granting of the application has been received.

In the circumstances, the Commission finds that the proposed deviation is reasonable. A public hearing is not necessary. The Commission concludes that the application should be granted.

IT IS ORDERED that:

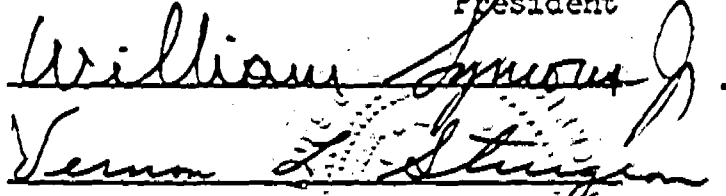

1. Insured Transporters, Inc., a corporation, is hereby authorized to depart from the provisions of Minimum Rate Tariff 12 as more particularly set forth in Appendix A attached hereto and by this reference made a part hereof.
2. The total freight charges assessed under the authority granted in ordering paragraph 1 hereof shall not be less than those which would have been assessed had the rates and accessorial charges stated in Minimum Rate Tariff 12 been applied.
3. Insured Transporters, Inc. shall retain and preserve copies of its freight bills, subject to the Commission's inspection, for a period of not less than three years from the dates of issuance thereof and each such copy of its freight bills shall have attached a statement of the charges which would have been assessed if the minimum rates had been applied and full information necessary for accurate determination of the charges under Minimum Rate Tariff 12.
4. The authority herein granted shall expire one year after the effective date of this order unless sooner cancelled, modified, or extended by order of the Commission.

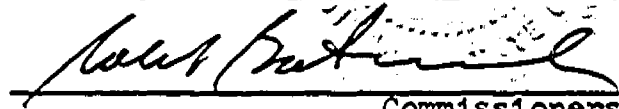

A. 55512 - GM

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 14 day of
