Case No. 5440 Petition No. 99 (Filed May 14, 1975)

SUPPLEMENTAL OPINION AND ORDER

By Decision No. 85293 issued today in Case No. 5432 (Petition 855) et al., the Commission found that certain minimum rate tariffs should be amended to include rules governing the obtaining of certified weights. The decision also provided that Minimum Rate Tariff 10 should be amended by separate order to avoid duplication of tariff distribution.

IT IS ORDERED that:

1. Minimum Rate Tariff 10 (Appendix A of Decision No. 44633, as amended) is further amended by incorporating therein, to become effective January 3, 1976, Twelfth Pevised Page 2 and Sixth Revised Page 6, attached hereto and by this reference made a part hereof.

- 2. Common carriers subject to the Public Utilities Act, to the extent they are subject to Decision No. 44633, as amended, are directed to comply with the freight bill requirements established by the order herein.
- 3. Tariff publications required to be made by common carriers as a result of this order shall be filed not earlier than the effective date of this order and may be made effective not earlier than the tenth day after the effective date of this order on not less than ten days' notice to the Commission and to the public and such tariff publications shall be made effective not later than

 January 3, 1976; and tariff publications which are authorized but not required to be made by the common carriers as a result of this order may be made effective not earlier than the tenth day after the effective date of this order, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than sixty days after the effective date of the minimum rate tariff pages incorporated in this order.
- 4. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

5. In all other respects, Decision No. 44633, as amended, shall remain in full force and effect.
