Application No. 56063  
(Filed November 13,  
1975)

ORDER MODIFYING DECISION

On December 30, 1975, we issued an opinion and order in this application (Decision No. 85280) which amended General Order No. 112-C.

Subsequently an error was found in Paragraph 5 of the Appendix, which refers to the amendment of Section 192.229(c) of the General Order. A subsection, 192.229(c)(2), has been omitted inadvertently in this paragraph, relating to weld tests conducted before March 20, 1975.

Modification of the decision is appropriate to correct this omission.

IT IS ORDERED that Paragraph 5 of the Appendix to Decision No. 85280 is modified by adding Subsection 192.229(c)(2) so that the paragraph reads as follows:

"5. Section 192.229(c) is amended to read as follows:  
§ 192.229 Limitations on welders.

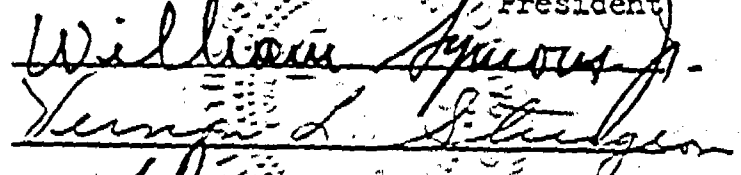

\* \* \*

(c) A welder qualified under § 192.227(a) may not weld unless within the preceding 6 calendar months the welder has had one weld tested and found acceptable under--

- (1) Section 3 or 6 of the 1973 edition of API Standard 1104, except for the standards in subsection 6.9 for depth of undercutting adjacent to the root bead unless that depth is visually determined by use of a depth measuring device on all undercutting along the entire circumference of the weld; or
- (2) In the case of tests conducted before March 20, 1975, Section 3 or 6 of the 1968 edition of API Standard 1104."

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 27<sup>th</sup> day  
of JANUARY, 1976.
