ORDER AMENDING DECISION NO. 85069

By petition for rehearing and/or reconsideration of Decision No. 85069 dated October 28, 1975, in these proceedings, California Trucking Association requests that the effective date of certain provisions in Minimum Rate Tariffs 2, 1-B, 9-B, 11-A and 19 be extended from May 25, 1976 to July 1, 1977. These provisions would require that freight bills contain the current address and telephone number of the issuing carrier. No objections by other parties to the granting of the petition have been received.

Having considered each and every allegation in the petition and being of the opinion that petitioner's request is reasonable and justified, the Commission finds that Decision No. 85069 should be modified as requested.

In order to avoid duplication of tariff distribution, Minimum Rate Tariff 2 should be amended by this order and the other minimum rate tariffs should be amended by separate orders.

IT IS ORDERED that:

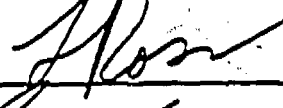

1. Rehearing of Decision No. 85069 is denied.
2. The effective date of the tariff amendments ordered by Decision No. 85069 is changed from May 25, 1976 to July 1, 1977.
3. Minimum Rate Tariff 2 (Appendix D of Decision No. 31606, as amended) is hereby further amended by incorporating therein, to become effective May 25, 1976, Seventeenth Revised Page 27-A and Fourth Revised Page 68-D attached hereto and by this reference made a part hereof.
4. Common carriers subject to the Public Utilities Act, to the extent they are subject to Decision No. 31606, as amended, are directed to comply with the freight bill requirements established by the order herein.
5. Tariff publications required to be made by common carriers as a result of the order herein shall be filed not earlier than the effective date of this order and may be made effective not earlier than the tenth day after the effective date of this order on not less than ten days' notice to the Commission and to the public and such tariff publications shall be made effective not later than July 1, 1977; and the tariff publications which are authorized but not required to be made by common carriers as a result of the order herein may be made effective not earlier than the tenth day after the effective date of this order, and may be made effective on not less than ten days' notice to the Commission and to the public if filed not later than September 1, 1977.
6. Common carriers, in establishing and maintaining the amendments authorized hereinabove, are hereby authorized to depart from the provisions of Section 461.5 of the Public Utilities Code to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding

authorizations are hereby modified only to the extent necessary to comply with this order; and schedules containing the amendments published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.

7. In all other respects, Decision No. 31606, as amended, and Decision No. 85069 shall remain in full force and effect.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 18<sup>th</sup> day of February, 1976.
