value. The offering would be underwritten by a nationwide group of underwriters represented by Dean Witter & Co. Incorporated and Blyth Eastman Dillon & Co. Incorporated.

On or about March 30, 1976, applicant expects to finalize negotiations with the underwriters pertaining to the price to be paid to it for said shares, together with related underwriting commission, dividend rate and redemption provisions.

After consideration the Commission finds that:

- 1. The proposed stock would be for a proper purpose.
- Applicant has need for external funds for the purpose set forth in this proceeding.
- 3. The money, property or labor to be procured or paid for by the stock herein authorized is reasonably required for the purpose specified herein, which purpose is not, in whole or in part, reasonably chargeable to operating expenses or to income.

On the basis of the foregoing findings we conclude that the application should be granted. A public hearing is not necessary.

In issuing our order herein, we place applicant and its shareholders on notice that we do not regard the number of shares outstanding, the total par value of the shares nor the dividends paid as measuring the return it should be allowed to earn on its investment in plant, and that the authorization herein granted is

not to be construed as a finding of the value of the company's stock or properties nor as indicative of amounts to be included in proceedings for the determination of just and reasonable rates.

Applicant is hereby placed on further notice that, if the Commission should believe the negotiated dividend mate, price or underwriters' compensation pertaining to the proposed stock issue would result in excessive effective costs, it would take into consideration in rate proceedings only that which it deems reasonable.
