

Decision No. 85632

ORIGINAL

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of FRED JOHN CRIKOS for  
authority under Section 3666 of the  
Public Utilities Code of the State  
of California to deviate from the  
minimum rates for the transportation  
of various aluminum products for  
Kaiser Aluminum, between certain  
interplant points.

Application No. 55480  
(Filed February 5, 1975;  
amended February 14, 1975)

SUPPLEMENTAL INTERIM ORDER

Applicant Fred John Crikos was granted authority to deviate from the minimum rates for the transportation of certain articles for Kaiser Aluminum by D.84696 dated July 22, 1975.<sup>1/</sup> On January 27, 1976 applicant filed a petition for modification of D.84696. The petition was amended on February 17, 1976.

According to the amended petition certain commodities were inadvertently not included in the original rate deviation request. The commodities move from the same plants in substantial quantities as those named in D.84696.

No objection or request for public hearing has been received on the amended petition. We find that the requested modification is justified and conclude that the petition be granted. To avoid undue hardship this order will be made effective on the date hereof.

---

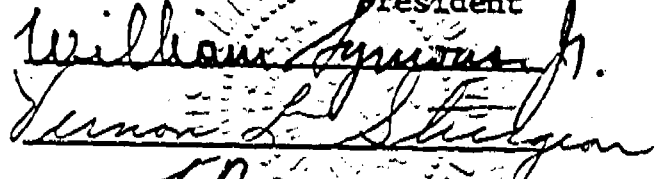

<sup>1/</sup> D.84696 was suspended by the timely filing of a Petition for Rehearing filed by the California Trucking Association. D.84957 dated September 30, 1975 denied rehearing.

IT IS ORDERED that:

1. Decision No. 84696 is amended by the cancellation of Appendix A thereto to be superseded by Appendix A to this decision.
2. In all other respects, Decision No. 84696 shall remain in full force and effect.

The effective date of this order is the date hereof.

Dated at San Francisco, California, this 30<sup>th</sup>  
day of MARCH, 1976.
