O P I N I O N

The Siskiyou Telephone Company seeks authority (a) to enter into a Telephone Loan Contract Amendment, (b) to execute and deliver supplemental mortgages, and (c) to issue and deliver a Rural Telephone Bank Note or Notes in the aggregate principal amount of not exceeding \$3,135,300.

Applicant is a California corporation furnishing telephone services in portions of Humboldt and Siskiyou Counties. According to the application, the company is experiencing an increasing demand for higher grades and greater quantity of telephone services, which demand requires the expansion of its facilities.

In order to obtain funds for the expansion and \$149,300 for the required purchase of Class B stock of the Rural Telephone Bank, the utility contemplates borrowing \$3,135,300 from said bank pursuant to the terms of a proposed Telephone Loan Contract Amendment. The borrowing would be evidenced by a 35-year Mortgage Note or Notes bearing interest at the rate of 7% per annum, and secured by an existing mortgage, and such additional supplemental mortgages as may be required.

More specifically, applicant proposes to expend the note proceeds as follows:

Central office equipment	\$1,502,000
Outside plant and station equipment	1,235,000
Engineering of plant construction and acquisition	229,000
Miscellaneous items not in whole or part chargeable to operating expenses or to income	20,000
Rural Telephone Bank Class B stock	<u>149,300</u>
Total	<u>\$3,135,300</u>

After consideration the Commission finds that:

1. The proposed documents would not be adverse to the public interest.
2. The proposed Mortgage Note or Notes would be for proper purposes.
3. The money, property or labor to be procured or paid for by the issue of the Mortgage Note or Notes herein authorized is reasonably required for the purposes specified herein, which purposes are not, in whole or in part, reasonably chargeable to operating expenses or to income.
4. There is no known opposition and there is no reason to delay granting the relief requested.

On the basis of the foregoing findings we conclude that the application should be granted, and that the effective date of the order should be the date on which applicant pays the prescribed fee. A public hearing is not necessary.

The authorization herein granted is for the purpose of this proceeding only, and is not to be construed as indicative of (a) amounts to be included in proceedings for the determination of just and reasonable rates, or (b) concurrence in the reasonableness of proposed serving arrangements or tariff modifications.
