Application No. 56351  
 (Filed March 22, 1976)

OPINION AND ORDER

By this application, Bulk Transportation, a corporation, requests authority to deviate from the provisions of Minimum Rate Tariff 7-A in connection with the transportation of silica sand for Latchford Glass Company from Mission Viejo to Huntington Park.<sup>1</sup>

The application is based on special circumstances and conditions detailed therein.

Revenue and expense data submitted by applicant indicate that the transportation involved may reasonably be expected to be profitable under the proposed rates.

The application was listed on the Commission's Daily Calendar of March 26, 1976. No objection to the granting of the application has been received.

In the circumstances, the Commission finds that applicant's proposal is reasonable. A public hearing is not necessary. The Commission concludes that the application should be granted as set forth in the ensuing order.

---

<sup>1</sup>The present and proposed rates for this transportation are respectively 349 cents per ton, minimum weight 23 tons, and 260 cents per ton, minimum weight 28 tons. It is also proposed to assess a rate of \$3.00 for each 15 minutes or fraction thereof for loading and unloading time in excess of one hour.

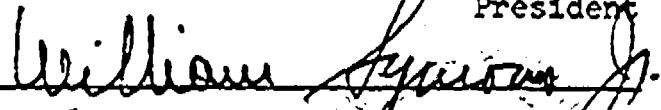

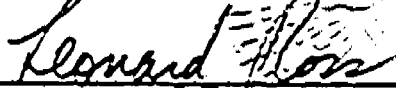

IT IS ORDERED that:

1. Bulk Transportation, a corporation, is authorized to perform the transportation shown in Appendix A attached hereto and by this reference made a part hereof at not less than the rates set forth therein.

2. The authority granted herein shall expire one year after the effective date of this order unless sooner cancelled, modified or extended by further order of the Commission.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 7<sup>th</sup> day of July, 1976.
