RADIO DISPATCH CORP.,

Complainant,

vs.

INDUSTRIAL COMMUNICATIONS
SYSTEMS, INC.,

Defendant.

Case No. 9459
(Filed October 20, 1972)

ORDER OF DISMISSAL

On October 20, 1972 complainant filed Case No. 9459 alleging that defendant was commencing an expansion of its operations as a radiotelephone utility into the Pomona-Ontario-Corona area presently served by complainant. Complainant requested that the status quo be preserved by issuance of a temporary restraining order prohibiting defendant from establishing message centers in the area in question.

The Commission being of the opinion that insufficient grounds had been asserted to show irreparable injury to complainant which could only be abated by the granting of extraordinary relief based solely on complainant's pleadings denied the request by Decision No. 80695 dated October 31, 1972, and stated that the complaint would be processed in the normal manner.

By notice dated December 17, 1974 the matter was set for hearing on February 25, 1975. By letter dated February 14, 1975 complainant requested that the matter be removed from the calendar in view of the fact that some of the issues were present in another matter between the parties (the so-called Loma Linda case,

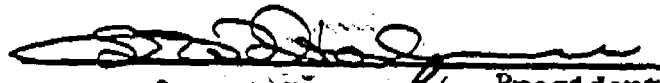

Case No. 9696, Order of Suspension and Investigation of Industrial Communications Systems, Inc. Advice Letter No. 60). By notice mailed February 14, 1975 the matter was temporarily removed.

On January 8, 1976 a letter was sent to complainant asking if it wished to proceed with the matter. No reply has been received. The Loma Linda case was heard and finally decided after rehearing was granted. (Decision No. 85955 dated June 15, 1976 in Case No. 9696.) It appears, therefore, that the matters complained of in Case No. 9459 have been resolved.

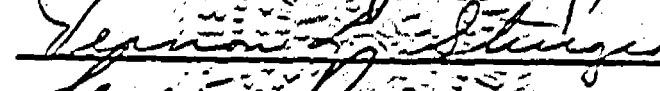

Therefore, IT IS ORDERED that Case No. 9459 is dismissed.

The effective date of this order shall be twenty days after the date hereof.

Dated at San Francisco, California, this 24th
day of AUGUST, 1976.
