Decision 84 03 112 March 21, 1984

**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation }  
for the purpose of considering and }  
determining minimum rates for the }  
transportation of rock, sand, }  
gravel and related items in bulk, }  
in dump truck equipment in Southern }  
California as provided in Minimum }  
Rate Tariff 17-A and Southern }  
California Production Area and }  
Delivery Zone Directory 1, and the }  
revisions or reissues thereof.

Case 9819  
Petition for Modification 63  
(Filed May 16, 1983;  
amended September 30, 1983  
and October 27, 1983)

**O P I N I O N**

By this petition, as amended, Southern California Rock Products Association requests the following modifications of Southern California Production Area and Delivery Zone Directory (Directory) 1 and Minimum Rate Tariff (MRT) 17-A:

1. Add a new Riverside County delivery zone description in Directory 1.
2. Revise descriptions of Riverside County Delivery Zones 33047, 33048, and 33050 in Directory 1.
3. Add zone rates in MRT 17-A to the new Riverside County delivery zone for the following transportation:
  - a. Aggregates and other commodities listed in Item 60 of the tariff from the following production areas.

<u>County</u>	<u>Production Areas</u>
Los Angeles	19-F and 19-G
Orange	30-A and 30-G
Riverside	33-O and 33-T
San Bernardino	36-A, 36-B, 36-D, 36-I, 36-L, and 36-M

- b. Asphaltic concrete and other commodities listed in Item 65 of the tariff from the following production areas.

<u>County</u>	<u>Production Areas</u>
San Bernardino	36-M
Orange	30-G

MRT 17-A names minimum rates for the transportation by dump truck carriers of certain commodities, including aggregates and asphaltic concrete. The tariff contains zone rates which apply from defined production areas to designated delivery zones via a network of routes over most of the legally traversible highways in Southern California areas where the rates apply. The descriptions of the production areas and delivery zones are set forth in Directory 1.

The petition states as follows:

1. A portion of land within the present city boundary of Corona is not listed as a delivery zone in Directory 1 and MRT 17-A. The City of Corona Planning Department has recently completed a land-use plan for this area, which includes future street improvements and a new primary street running east and west. The plan also indicates that there will be large building developments in the area. Because substantial volumes of aggregate and asphaltic concrete will be required here, the proposed new delivery zone and zone rates should be established for this area.
2. The boundaries of Riverside County Delivery Zones 33047, 33048, and 33050 are partially delineated by using certain City of Corona boundary lines. Since 1963, the city line has moved inordinate distances northerly and easterly with the result that the present descriptions of the three delivery zones should be modified as requested.
3. The revisions of the boundaries of the three existing zones are relatively minor and not significant enough to warrant a change in the zone rates in MRT 17-A to them.
4. The proposals are reasonable and necessary and should be granted.

By its memorandum dated November 7, 1983, which has been received in evidence as Exhibit 1 and served on parties of record, the Commission staff recommends that the petition, as amended, be granted. The staff also recommends that additional zone rates to the proposed delivery zone, which it has numbered 33105, be added to MRT 17-A for the following transportation:

1. Aggregates and other commodities listed in Item 60 of the tariff from the following production areas:

<u>County</u>	<u>Production Areas</u>
Orange	30-D and 30-L
Riverside	33-F, 33-R, and 33-S
San Bernardino	36-E and 36-H

2. Asphaltic concrete and other commodities listed in Item 65 of the tariff from the following production areas:

<u>County</u>	<u>Production Areas</u>
Orange	30-A and 30-D
Riverside	33-C
San Bernardino	36-A, 36-B, 36-D, 36-E, 36-F, and 36-G

3. Slag as described in Item 75 of the tariff from the following production areas:

<u>County</u>	<u>Production Areas</u>
San Bernardino	36-P and 36-Q

The staff pointed out that the additional zone rates it recommends are from production areas from which rates are published in MRT 17-A to delivery zones adjacent to the new delivery zone. It agrees with the tie-in segments developed by petitioner to new map Node 21050 for proposed Riverside County Delivery Zone 33105 from the existing neighboring map nodes. According to this data, the round-trip time and one-way distance from existing map Node 20474 are six minutes and 1.1 miles and from existing map Node 20493 are nine minutes and 1.7 miles. Zone rates to new Delivery Zone 33105 computed by the staff from the production areas suggested by it and

petitioner are based on this information. Suggested boundary descriptions for the new and the three revised delivery zones for publication in Directory 1 are attached to Exhibit 1.

The petition and the first and second amendments were listed on the Commission's Daily Transportation Calendars of May 18, October 6, and November 2, 1983, respectively. Copies were served on various interested parties. No protest to the petition has been received.

The petition will be granted, and the additional zone rates and the boundary descriptions recommended in Exhibit 1 will be adopted. It is anticipated that substantial quantities of aggregates, asphaltic concrete, slag, and related materials will be shipped in dump truck equipment to new Riverside County Delivery Zone 33105 as the development of the area progresses. Zone rates would be more appropriate for such volume transportation than hourly or distance rates. Since most other similar locations in this region are in established delivery zones to which zone rates apply, it would cause no rate discrimination to zone the area in question and establish zone rates to it.

Findings of Fact

1. MRT 17-A names minimum rates for the transportation by dump truck carriers of certain commodities via a network of routes over most legally traversible highways in Southern California from production areas to delivery zones described in Directory 1.
2. The substantially unimproved area within the city boundary of Corona described in the petition is not within an established delivery zone described in Directory 1.
3. The City of Corona Planning Department has recently completed a land-use plan for the unzoned area which includes street improvements, a new primary street running east and west across this area, and building developments.

4. Zone rates in MRT 17-A to this area from the production areas and for the commodities recommended in the petition, as amended, and in Exhibit 1 are more appropriate than the hourly and distance rates in MRT 7-A for the volume movements that will occur when development of the area is underway.

5. The description of new Riverside County Delivery Zone 33105 for this area included with Exhibit 1 is appropriate and should be incorporated in Directory 1.

6. Petitioner has developed tie-in traverse distances and times from existing map entry nodes to the new zone.

7. The staff developed zone rates based on this data and adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

8. The relatively minor revisions of the boundaries of existing Riverside County Delivery Zones 33047, 33048, and 33050 recommended by petitioner are due to changes in the boundaries of the city limits of Corona and would not affect zone rates in MRT 17-A to them.

9. The boundary revisions for the three existing zones included with Exhibit 1 are appropriate and should be incorporated in Directory 1.

10. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.

11. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

12. A public hearing is not necessary.

Conclusion of Law

The petition and the additional zone rates recommended in Exhibit 1 should be granted to the extent provided in the following order.

O R D E R

IT IS ORDERED that:

1. MRT 17-A (Appendix C of Decision (D.) 80578, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to become effective 39 days after today.
2. Southern California Production Area and Delivery Zone Directory 1 (Appendix A of D.65469, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix B, to become effective 39 days after today.
3. Common carriers subject to the Public Utilities Act, to the extent that they are also subject to D.80578 and D.65469, as amended, are authorized to establish in their tariffs the rates and routes necessary to conform with the further revisions ordered by this decision.
4. Tariff publications required to be made by common carriers as a result of this order shall be filed on not less than five days' notice to the Commission and to the public if filed not later than 60 days after the effective date of the minimum rate tariff pages incorporated in this order.
5. Common carriers, in establishing and maintaining the rates authorized by this order, are authorized to depart from the provisions of Public Utilities Code § 461.5 to the extent necessary to adjust long- and short-haul departures now maintained under outstanding authorizations; such outstanding authorizations are modified only to the extent necessary to comply with this order; and schedules containing the rates published under this authority shall make reference to the prior orders authorizing long- and short-haul departures and to this order.
6. In all other respects D.80578 and D.65469, as amended, shall remain in full force and effect.

7. The Executive Director shall serve a copy of this decision on every common carrier, or such carriers' authorized tariff publishing agents, performing transportation services subject to MRT 17-A.

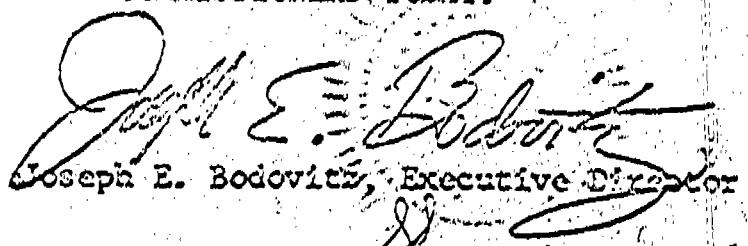

8. The Executive Director shall serve a copy of the tariff amendments on each subscriber to MRT 17-A.

This order becomes effective 30 days from today.

Dated MAR 21 1984, at San Francisco, California.

Decision 84 03 112

MAR 21 1984

**ORIGINAL**

## BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation  
 for the purpose of considering and  
 determining minimum rates for the  
 transportation of rock, sand,  
 gravel and related items in bulk,  
 in dump truck equipment in Southern  
 California as provided in Minimum  
 Rate Tariff 17-A and Southern  
 California Production Area and  
 Delivery Zone Directory 1, and the  
 revisions or reissues thereof.

Case 9819  
 Petition for Modification 63  
 (Filed May 16, 1983;  
 amended September 30, 1983  
 and October 27, 1983)

P I E C E

By this petition, as amended, Southern California Rock Products Association requests the following modifications of Southern California Production Area and Delivery Zone Directory (Directory) 1 and Minimum Rate Tariff (MRT) 17-A:

1. Add a new Riverside County delivery zone description in Directory 1.
2. Revise descriptions of Riverside County Delivery Zones 33047, 33048, and 33050 in Directory 1.
3. Add zone rates in MRT 17-A to the new Riverside County delivery zone for the following transportation:
  - a. Aggregates and other commodities listed in Item 60 of the tariff from the following production areas.

<u>County</u>	<u>Production Areas</u>
Los Angeles	19-F and 19-G
Orange	30-A and 30-G
Riverside	33-O and 33-T
San Bernardino	36-A, 36-B, 36-D, 36-I, 36-L, and 36-M
