1. Applicant possesses satisfactory fitness and financial responsibility to conduct the proposed transportation services.
2. Public convenience and necessity require the service proposed by applicant.

---

<sup>1</sup> The application was informally amended by letter of January 13, 1984 to request statewide, rather than limited, service territory authority. Notice of this filing appeared on the Commission's Transportation Calendar of March 22, 1984. No protests have been received.

3. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.

4. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.

5. A public hearing is not necessary.

Conclusion of Law

The application should be granted.

Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.
