Application 84-04-049
(Filed April 10, 1984)

O P I N I O N

Anywhere, U.S.A. Transportation, Inc., a California corporation, seeks authority as a highway common carrier to transport general commodities between all points and places in California.

Applicant does not currently hold operating authority from this Commission. Applicant's principals provided the following summary of their experience and ability to conduct the proposed operation:

"We have over twenty years experience in the transportation industry, of which ten years are both interstate and intrastate driving experience. We have hands on experience in dispatching, routing, highway rules, regulations, and safety. We have managed transportation departments for other companies, setting up systems, that completely serviced and satisfied their customers in all areas of the United States. We are also familiar with local pick up and delivery operations and the consolidation of L.T.L. shipments."

Applicant has listed six shippers who support this application. Applicant's balance sheet as of January 31, 1984 shows its total assets were \$137,602, its total liabilities were \$119,461, and its stockholders' equity was \$18,141.

Notice of the filing of this application appeared in the Commission's Daily Transportation Calendar of April 16, 1984. No protests have been received.

Findings of Fact

1. Applicant possesses satisfactory fitness and financial responsibility to conduct the proposed transportation services.
2. Public convenience and necessity require the service proposed by applicant.
3. It can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.
4. The following order has no reasonably foreseeable impact upon the energy efficiency of highway carriers.
5. A public hearing is not necessary.
6. Intrastate service by applicant should be commenced as soon as possible.

Conclusion of Law

The application should be granted.

Only the amount paid to the State for operative rights may be used in rate fixing. The State may grant any number of rights and may cancel or modify the monopoly feature of these rights at any time.

O R D E R

IT IS ORDERED that:

1. A certificate of public convenience and necessity is granted to Anywhere, U.S.A. Transportation, Inc., a California corporation, authorizing it to operate as a highway common carrier, as defined in PU Code Section 213, between the points listed in Appendix A.

2. Applicant shall:

- a. File a written acceptance of this certificate within 30 days after this order is effective.
- b. Establish the authorized service and file tariffs within 120 days after this order is effective.
- c. State in its tariffs when service will start; allow at least 10 days' notice to the Commission; and make tariffs effective 10 or more days after this order is effective.
- d. Comply with General Orders Series 80, 100, 123, and 147, and the California Highway Patrol safety rules.
- e. Maintain accounting records in conformity with the Uniform System of Accounts.
- f. Comply with General Order Series 84 (collect-on-delivery shipments). If applicant elects not to transport collect-on-delivery shipments, it shall file the tariff provisions required by that General Order.

- g. Comply with General Orders Series 102 and 130. If applicant elects to engage subhaulers, applicant shall have the required bond on file, and applicant shall engage only highway carriers who hold appropriate operating authority granted by this Commission.
3. The application is granted as set forth above.
This order becomes effective 30 days from today.
Dated JUN 6 1984, at San Francisco, California.
