

Decision 84 06 085 June 6, 1984

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the matter of the application of)
Comven, Inc. for a certificate of)
public convenience and necessity)
under Section 1001 of the Public)
Utilities Code to construct a new)
radio paging system in)
San Bernardino, California.)

ORIGINAL

Application 83-06-39
(Pet. for Mod. filed
March 28, 1984)

ORDER MODIFYING DECISION 84-02-002 ✓

Comven, Inc. (Comven) petitions to modify Decision (D.)
84-02-002 to correct an alleged factual error concerning Comven's
expected startup capital needs for construction of the radiotelephone
system authorized in that decision. Finding of Fact 4 in that
decision states that "Applicant expects its startup capital needs for
the proposed service to total \$753,700". ✓

In its Petition Comven states that application (A.)
83-06-39 was filed the same day as the pending Comven A.83-06-38 with
respect to provision of a similar service in San Diego. The two
systems that Comven filed for on that day, as well as others it has
proposed, will be virtually identical in terms of Federal
Communications Commission (FCC) approval, engineering, operation, and
cost. Because the two applications were so similar and were filed
the same day, they were treated as a single system or "package" both
for purposes of internal planning and presentation of financial
information with seeking certification. Therefore, the same
projections concerning capital requirements, expense and income were
combined in the exhibits filed with both applications. As a matter
of fact, the \$753,700 capital requirement jointly considers the
capital requirements for the two systems and three other systems as
well which Comven expects to install. Therefore, the \$753,700 should
be divided by five to reflect applicant's expectations with respect

to the facility dealt with in D.84-02-002. To correct this alleged error applicant requests that Finding of Fact 4 be modified. For good cause appearing, ✓

IT IS ORDERED that Finding of Fact 4 in D.84-02-002 which presently reads as follows: ✓

"4. Applicant expects its start-up capital needs for the proposed services to total \$753,700."

is modified to read as follows:

"4. Applicant expects its startup capital needs for three applications it has filed and two more it plans to file to total \$753,700, and for capital needs for the service in San Bernardino, which is the only service considered by this decision, to be approximately one-fifth of that amount."

This order becomes effective 30 days from today.

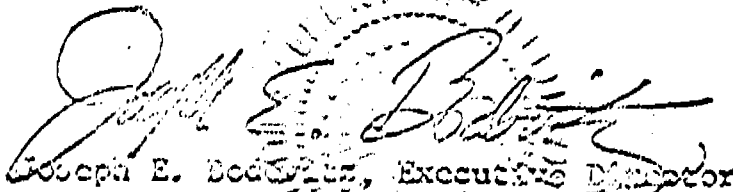

Dated June 6, 1984, at San Francisco, California.

LEONARD M. GRIMES, JR.
President

VICTOR CALVO
DONALD VIAL
WILLIAM T. BAGLEY
Commissioners

Commissioner Priscilla C. Grew,
being necessarily absent, did not
participate.

I CERTIFY THAT THIS DECISION
WAS APPROVED BY THE ABOVE
COMMISSIONERS' PANEL.

Joseph E. Boddy, Executive Director
