ORDER OF DISMISSAL

By this application, Gene Wolfinbarger, doing business as A & W Truck Center, seeks authority under Code Section 3666 to charge less than the rates set forth in the Commission's Transition Tariff 2 (TT-2) for the transportation of freight all kinds.

In Decision 90663, the Commission abolished minimum rate regulation of general commodity transportation and established in lieu thereof a more competitive regulatory system of carrier-filed rates. General commodity minimum rate tariffs, including TT-2, were cancelled April 30, 1980. New procedures established in Decision 90663 to begin the transition to carrier-set rates became effective on the same date. Under these transition rules, no formal application is required for carriers to reduce rates. This filing may be made under the reregulation program in conformance with General Order 147. Gene Wolfinbarger was informed of these procedures by letter dated March 21, 1984.

Since these transition rules require no formal application for rate reductions, this application should be dismissed without prejudice to be filed under our new procedures. Applicant should file under the provisions of General Order 147.
