PARK WATER COMPANY
VANDENBERG DISPOSAL DIVISION

SCHEDULE NO. 3

INSTITUTIONAL SERVICE, PUBLIC SCHOOLS

For schools not having separate meters for irrigation water or meters to monitor wastewater flows, the monthly wastewater flows will be based upon the number of students multiplied by the following flow factors:

	<u>Per Student Per Month</u>
For schools having showers on the premises	\$0.15 Ccf
For schools without showers on the premises	0.06 Ccf

The monthly charges will be calculated using the school's state reported subvention number of students as of October 1 each year, the appropriate flow factor, and the wastewater rate included in Schedule No. 2, Commercial Service. The minimum monthly charge and the strength surcharges included in Schedule No. 2 shall apply to this service. The monthly charges for summer months June, July, and August will assume a 50% reduction in student population.
