

Decision 88 01 005 JAN 13 1988**ORIGINAL**

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Investigation)
for the purpose of considering and)
determining minimum rates for the)
transportation of rock, sand, and)
gravel in bulk, in dump truck)
equipment in Southern California)
as provided in Minimum Rate Tariff)
17-A and Southern California)
Production Area and Delivery Zone)
Directory 1.)

Case 9819
Petition for Modification 74
(Filed March 1, 1985;
amended August 22, 1986 and
January 12, 1987)

OPINION

By Petition 74 in Case (C.) 9819 San Diego County Rock Producers Association (SDCRPA) has requested that the Commission update certain basic time and distance traverse data underlying the zone rates in Minimum Rate Tariff 17-A (MRT 17-A), and that new traverse data and rates be recognized and adopted for shipments to new delivery zones located in San Diego County and Southern Riverside County.

MRT 17-A names rates for the transportation of rock, sand, gravel, slag, and asphaltic concrete from production areas to delivery zones in Southern California via a network of routes over legally traversable highways. The subject traverse network was last updated in 1968.

SDCRPA has held conferences with several carrier and shipper organizations, including the California Dump Truck Owners Association, California Carriers Association, Associated Independent Owner Operators, Inc., California Asphalt Pavement Association, and California Trucking Association. Petitioner employed an engineer to study and determine the changes in existing traverses, as well as the new traverses. The Commission's

Transportation Division staff has verified the new and updated times and mileages developed by the petitioner.

New cost information has been produced and rates developed which reflect the new traverse data to existing zones, as well as rates to new zones. Rates to existing zones reflect increases and reductions from existing rates.

The updated traverses reflect new freeway routes, as well as traffic congestion levels experienced on all routes traveled between the involved production areas and the new and existing delivery zones. In many instances cost reductions associated with new, shorter freeway routes may be offset by the heavy traffic over these new routes.

The staff has furnished all interested parties with copies of the new rates discussed herein, and requested comments by October 18, 1987 from parties who may take exception to the proposed rates. No exceptions have been received. It appears that the new rates may be adopted by ex parte action.

Findings of Fact

1. In Petition 74, SDCRPA has requested that certain traverse data underlying MRT 17-A rates be updated to reflect current circumstances and that rates to new delivery zones be established with respect to the transportation of commodities in dump truck equipment from San Diego County production areas.

2. The Commission's Transportation Division staff has verified the traverse data furnished by SDCRPA, and recommends that rates based upon this data now be published in MRT 17-A.

3. Rates shown in the attached tariff pages include the new and updated traverse costs.

Conclusions of Law

1. The rates in the attached pages are rates which for the future will be just, reasonable, and nondiscriminatory when applied between the designated production areas and delivery zones.

2. Petition 74 should be granted.

3. A public hearing is not necessary.
4. Since this proceeding is noncontroversial, the effective date of this decision should be today.

ORDER

IT IS ORDERED that:

1. MRT 17-A (Appendix C of D.80578, as amended) and Southern California Production Area and Delivery Zone Directory 1 (Appendix A of D.65469, as amended) are further amended by incorporating the tariff pages contained in Appendixes A and B attached, to become effective February 1, 1988.
2. In all other respects, D.80578 and D.65469, as amended, shall remain in full force and effect.
3. The Executive Director shall serve a copy of this decision and tariff amendments on each subscriber to MRT 17-A.
4. Petition 74 is granted.

This order is effective today.

Dated JAN 13 1988, at San Francisco, California.

DONALD VIAL
FREDERICK R. DUDA
G. MITCHELL WILK
JOHN B. OHANIAN
Commissioners

Commissioner Stanley W. Hulett
being necessarily absent, did
not participate.

I CERTIFY THAT THIS DECISION
WAS APPROVED BY THE ABOVE
COMMISSIONERS TODAY.
