Case 9819
Petition for Modification 102
(Filed August 15, 1988)

OPINION

WYROC, INC. (petitioner) has filed to request a modification of Minimum Rate Tariff 17-A (MRT 17-A) and Southern California Production Area and Delivery Zone Directory No. 1.

Petitioner is a California corporation in the business of producing, marketing, and distributing rock, sand, and gravel products employing independent carriers to haul its products to various areas including Delivery Zone 37398 in San Diego County. A copy of its Articles of Incorporation has been previously filed with the Commission in compliance with Commission Rule 16 (File T-68471).

Decision 88-01-005 (Case 9819, Pet. 74, dated January 13, 1988) updated certain zone rate time and distance traverses in San Diego County, applicable to MRT 17-A. The updated routes are based on information received during the latter part of 1983 and the first few months of 1984. Petitioner has discovered a much shorter access route between Production Area 37 TT and Delivery Zone 37398.

The current MRT 17-A rate is based on a total of 7.6 one-way miles and 38 round-trip minutes from 37 TT to Delivery Zone 37398 via nodes 73372, 73379, 73364, 73971, and 73981. Petitioner proposes to add a direct computer link segment from 37 TT (node

74009) to Delivery Zone 37398 using the now accessible shorter route generally along Shadow Ridge Drive and Melrose Drive. Petitioner is requesting that dump truck traverse Map B be amended to include the new route from Production Area 37 TT to Delivery Zone 37398.

The Transportation Division has recommended that the application be granted.

Copies of the application were mailed to the California Dump Truck Owners Association, the Associated Independent owner Operators, Inc., the California Carriers Association, the San Diego County Rock Producers Association, and the State of California Department of Transportation. Notice of the filing of the application was published in the Commission's Daily Calendar on August 19, 1988. There have been no protests or requests for a hearing.

Findings of Fact

1. Petitioner has applied to amend a dump truck traverse map to include a shorter route and revised zone rate from Production Area 37 TT to Delivery Zone 37398.
2. This map is used in determining rates to be charged, on the application of MRT 17-A.
3. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.
4. A public hearing is not necessary.

Conclusions of Law

1. MRT 17-A should be amended to incorporate the shorter access route from Production Area 37 TT to Delivery Zone 37398.
2. Southern California Production Area and Delivery Zone Directory 1 should be amended to include the new access route described in the petition and Appendix A thereto.
3. This order should be effective on the date signed because there is an immediate need for rate relief.

ORDER

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (MRT 17-A) (Appendix C to Decision (D.) 80578, as amended) is further amended by incorporating Eighth Revised Page 8-TT and Eighth Revised Page 8-TT-1, attached, to become effective 30 days after today.
2. In all other respects, D.80578, as amended, shall remain in full force and effect.
3. The Executive Director shall serve a copy of this decision on each subscriber to MRT 17-A.

This order is effective today.

Dated DEC 9 1988, at San Francisco, California.
