Case 87-02-043
(Filed February 18, 1987)

OPINION DISMISSING COMPLAINT

On February 18, 1987 William E. Riley filed a complaint requesting that under Public Utilities (PU) Code § 739.5 the Commission require Heritage Ranch Recreational Vehicle Park to charge complainant for electric service pursuant to Southern California Edison Company's (Edison) domestic rate schedule.

Complainant states that he resides in a recreational vehicle (RV) in Heritage Ranch Recreational Vehicle Park, is provided electric service through a submeter, and has been refused service under Edison's domestic rate schedule.

On February 24, 1989 Edison filed a motion to dismiss Riley's complaint stating that Decision (D.) 88-09-025, Wesselink et al. (RV parks) v Edison, determined that RV parks should not be authorized to take electric service under domestic rate schedules DMS-1 and DMS-2. Since these are the only rate schedules that allow a customer to submeter and bill its tenants, Edison argues that RV parks may not submeter and bill tenants for electric service. Complainant did not respond to Edison's motion to dismiss the complaint.

We agree with Edison's interpretation of D.88-09-025 (RV parks may not submeter and bill tenants for electric service) and will dismiss the complaint.
