In the Matter of the Investigation )  
for the purpose of considering and )  
determining minimum rates for the )  
transportation of rock, sand, )  
gravel and related items in bulk, )  
in dump truck equipment in Southern )  
California as provided in Minimum )  
Rate Tariff 17-A and Southern )  
California Production Area and )  
Delivery Zone Directory 1, and the )  
revisions or reissues thereof. )

Case 9819  
Petition for Modification 107  
(Filed April 12, 1989)

O P I N I O N

Blue Diamond Materials (Petitioner), a division of Sully-Miller Contracting Company, has filed to request a modification of Minimum Rate Tariff 17-A (MRT 17-A) and Southern California Production Area and Delivery Zone Directory 1.

Petitioner is in the business of producing, marketing, and distributing rock, sand, and gravel products, employing independent carriers to haul its products in Southern California. Petitioner's Articles of Incorporation have been placed in Commission File Cal. T-12864.

By Decision (D.) 69469 and D.68543, Case 5437, the Public Utilities Commission established Directory No. 1 containing descriptions of Production Areas and delivery zones and rules governing boundary descriptions applicable to minimum rate tariffs, making specific reference thereto. The Commission also established MRT 17-A naming minimum zone rates, area to point rates, and rules and regulations for the transportation of commodities as described in Item 60 and Item 65 in dump truck equipment from defined production areas to established delivery zones and points in Southern California by highway carriers.

Association, and the Department of Transportation of the State of California. The application was noticed in the Commission's Daily Calendar on April 17, 1989 and there have been no protests or requests for a hearing.

The Transportation Division has recommended that the application be granted.

Findings of Fact

1. Petitioner markets and distributes rock, sand, and gravel products, employing independent carriers to haul its products in Southern California.

2. Petitioner proposes the addition of 18 new delivery zones in eastern Orange County. No zones have been added since 1965 and there is continuous construction in the area.

3. Granting this petition will benefit the sand and rock carriers as well as contractors operating in eastern Orange County.

4. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

5. A public hearing is not necessary.

Conclusions of Law

1. MRT 17-A should be amended to include 18 additional new delivery zones in eastern Orange County as provided in the petition filed herein.

2. Southern California Production Area and Delivery Zone Directory 1 should be amended to accommodate the proposed new delivery zones described in the appendices to the petition filed herein.

O R D E R

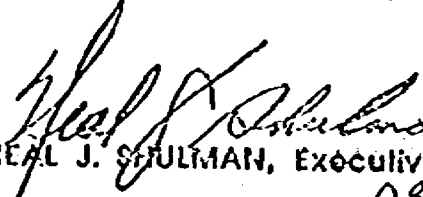

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (MRT 17-A) (Appendix C to Decision (D.) 80578, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to this decision, to become effective 30 days after today.
2. Southern California Production Area and Delivery Zone Directory 1 (Appendix A of D.65469, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to become effective 30 days after today.
3. In all other respects, D.80578 and D.65469, as amended, shall remain in full force and effect.
4. The Executive Director shall serve a copy of this decision on each subscriber to MRT 17-A.
5. The petition is granted as set forth above.

This order is effective today.

Dated MAR 14 1990, at San Francisco, California.

I CERTIFY THAT THIS DECISION  
WAS APPROVED BY THE ABOVE  
COMMISSIONERS TODAY

# CORRECTION

THIS DOCUMENT HAS  
BEEN REPHOTOGRAPHED  
TO ASSURE  
LEGIBILITY

It is alleged that since MRT 17-A was established in 1965, no new delivery zones have been added for Orange County. Many areas outside the existing zones have now become populated and further expansion of housing is now underway in the underdeveloped area of eastern Orange County, being the subject of this petition.

It is alleged that the addition of new zones and corresponding rates will provide the industry with efficient zone delivery rates. Petitioner believes such rates are warranted because of the high level of construction activity in the proposed area to be zoned. It is anticipated that the construction will continue for several years.

Petitioner proposes the addition of 18 new delivery zones in eastern Orange County, generally along Santiago Canyon Road and El Toro Road, which includes unzoned areas east of El Toro and Mission Viejo as well as such areas as the Coto de Caza Development and the Plano Trabuco area. A location map is attached to the petition as Appendix A and each proposed delivery zone is identified with a number and description in Appendix B.

In order to include these new zones in the existing zone rate system of MRT 17-A truck traverses were made along principal truck routes within the new zoned area developing time and distance data. This data includes information to develop computer generated zone rates from any existing production area origin within the Los Angeles Core Area (Los Angeles, Orange, Ventura, Riverside, and San Bernardino Counties, including a portion of Santa Barbara County).

The proposed new traverse network segments, new zone entry segments, and deletions, which may be used to modify PUC traverse network Map No. 3, are set forth in Appendix C to the application.

Copies of the application were mailed to the California Dump Truck Owners Association, Associated Independent Owner Operators, Inc., California Carriers Association, California Asphalt Pavement Association, Southern California Rock Products

Association, and the Department of Transportation of the State of California. The application was noticed in the Commission's Daily Calendar on April 17, 1989 and there have been no protests or requests for a hearing.

The Transportation Division has recommended that the application be granted.

Findings of Fact

1. Petitioner markets and distributes rock, sand, and gravel products, employing independent carriers to haul its products in Southern California.

2. Petitioner proposes the addition of 18 new delivery zones in eastern Orange County. No zones have been added since 1965 and there is continuous construction in the area.

3. Granting this petition will benefit the sand and rock carriers as well as contractors operating in eastern Orange County.

4. The rates adopted in the following order will result in just, reasonable, and nondiscriminatory minimum rates for the transportation involved.

5. A public hearing is not necessary.

Conclusions of Law

1. MRT 17-A should be amended to include 18 additional new delivery zones in eastern Orange County as provided in the petition filed herein.

2. Southern California Production Area and Delivery Zone Directory 1 should be amended to accommodate the proposed new delivery zones described in the appendices to the petition filed herein.

O R D E R

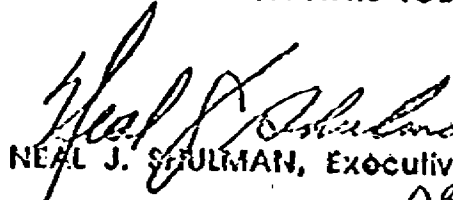

IT IS ORDERED that:

1. Minimum Rate Tariff 17-A (MRT 17-A) (Appendix C to Decision (D.) 80578, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to this decision, to become effective 30 days after today.
2. Southern California Production Area and Delivery Zone Directory 1 (Appendix A of D.65469, as amended) is further amended by incorporating the revised tariff pages attached and listed in Appendix A, to become effective 30 days after today.
3. In all other respects, D.80578 and D.65469, as amended, shall remain in full force and effect.
4. The Executive Director shall serve a copy of this decision on each subscriber to MRT 17-A.
5. The petition is granted as set forth above.

This order is effective today.
